Transmission method: BT/2.4G/wiredCharging cable length: about 2.1m

• Charging cable length: about 2:1111

• Battery capacity: 6000mAh rechargeable lithium battery

Charging voltage/current: DC 5V === 1000mA

INSTRUCTIONS FOR CHARGING

- 1. It is recommended to charge the keyboard only using the USB interface of the computer;
- 2. Do not use the fast charger to charge the keyboard;
- 3. Do not use poor quality non-standard power adapter to charge the keyboard;
- 4. Do not use the overvoltage and overcurrent power adapter to charge the keyboard;
- 5. Keep away from high-temperature devices when charging;
- 6. Turn off the power switch when not in use for a long time.

The above charging instructions also apply to other devices with a charging function (keyboard/mouse/headset/speaker, etc.)

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1. this device may not cause harmful interference, and
- 2. this device must accept any interference received, including interference that may cause undesired operation.

WARRANTY CARD

Thank you for purchasing our products. If there are any quality problems during the warrant period, please contact us. Please provide this warranty card when contacting, so that we card provide you with perfect after-sales service.
