### **SPECIFICATIONS**

Product model: MCHOSE 2775 Connectivity: wireless/2.4GHz/Wired

Charging interface: Type-C

Charging voltage/current: DC 5V == 1.5A

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

# **▲** CHARGING INSTRUCTIONS **€**

- 1. It is recommended to only use the computer USB interface to charge the keyboard;
- 2. Do not use a fast charging mobile phone charger to charge the keyboard;
- 3. Do not use inferior non-standard power adapters to charge the keyboard;
- 4. Do not use an overvoltage and overcurrent power adapter to charge the keyboard;
- 5. Please stay away from high-temperature equipment when charging;

6. Please turn off the power switch when not in use for a long time.

The above charging instructions also apply to other devices with charging functions (keyboard/mouse/headphones/speakers, etc.)

### **WARRANTY CARD**

Thank you for purchasing our company's products. If there are any quality issues with the products during the warranty period, please contact us.

Please provide this warranty card when contacting us so that we can provide you with comprehensive after-sales service.

Executive standard: GB4943.1-2022
