Product Diagram

1.  : Power on/off/Answer call/Hang up/Reject Volume up/Next track/Play/Pause
2.  :Volume down/Previous song/ SIRI voice assistant/ Game low latency
3. Double-mic noise reduction
4. Indicator
5. Magnetic charging port
6. Speaker

First Use:

1. Press  for 3s, the headphone will turn on and wait for connecting (flashing red and blue alternately);
2. Turn on Bluetooth on the phone and search for OP02 and click it to connect;

Note: It is recommended to turn on Bluetooth on the phone before powering it on to use, which will make it easier to reconnect.

One-for-Two function

1. Connect the headset to device A and turn off Bluetooth;
2. Turn on Bluetooth on device B and search for OP02 to connect;
3. Turn on Bluetooth on device A and then click the previous connection of OP02 to connect.

At this point, the headset has been connected to two devices at the same time.

Charge

Plug the cable into the charger and make the magnetic cord attach to the contact pin firmly to start charging. When charging, the red light will be on; and it will go off when charged to full power.

Note: Please remove the charging cable from the charger when not charging. Otherwise, it will lead to a short circuit.

Operation Instruction

Power on: Press  for 3s

Power off: Press  for 6s

Power off when no connection for 10 minutes or low power

Previous track: Press  for 1.5s

Next Track: Press  for 1.5s

Volume down: Tap  once

Volume up: Tap  once

Play/Pause: Tap  twice

Voice assistant: Tap  twice

Receive call: Tap  once (when call coming)

Decline: Tap  once (when calling)

Reject call: Press  for 2s

Reconnect: Reconnect in 10 minutes, otherwise power off.

Restore factory setting: When power on, press both  and  for 3s to restore factory setting and then power off.

Low latency game mode: When connected to the phone (not calling), press  four times to switch

Wearing Tips

Put the headset on the back of the neck, and the speakers to both ears when it is comfortable to wear.

Product Specification

Product Specification

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential

installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.
