WHAT'S IN THE BOX

- Pluggable Fragrance Warmer
- User Manual

FEATURES

- **Handmade Design:** The MepiLivs Snowdool Wax Melt Warmer is made by hand, which gives it a one-of-a-kind, classy look that makes any room look better.
- **Small and Lightweight:** Measuring 3.3 L x 3.3 W x 4.5 H inches, it is both small and light, making it great for use in tight spaces and vertical wall outlets without taking up too much room.

Wax Melt Warmer Plug In

Size:3.3in*4.5in

Bulb type:E12 120V/15W

Material:Wrought iron+Glass

The glass dish is detachable, be easy to use.

- **Night Light Function:** The warmer can also be used as a night light, giving off a soft, warm glow and making the room feel warm and welcome.
- **20W Bulb:** It comes with a 20W bulb that makes sure the temperature stays stable while also being durable and energy-efficient.
- **Flame-Free Operation:** It works without a flame, making it safer than regular candles because there is no chance of a fire.
- **Pollution-Free:** The warmer doesn't make any dangerous smoke or pollutants, so it's a better choice for the air quality inside.
- There are many ways to use this fragrance warmer. It works great with wax tarts and lets you fill your space with your favorite smells.
- **Simple to Use:** Just plug it into a wall outlet that is upright, put a glass dish on top, and add wax tarts. Using it is an easy and quick way to enjoy nice smells.
- **Decorations for the home:** The crystal pattern makes any room look nicer, whether it's the bedroom, the kitchen, the living room, or another room.
- **Instant scent Release:** The scent quickly fills the room once the wax is heated, getting rid of bad smells and making it smell better.
- **Durability:** The warmer is made to last with high-quality materials that will keep working well over time.
- **Effective:** The 20W bulb is made to be effective at saving energy, giving off a long-lasting scent without using too much power.
- **Safe for Kids and dogs:** Since the warmer doesn't have an open flame, it's safer for homes with kids or dogs because burns are less likely to happen.

- **Use in Multiple Rooms:** It's great for making any room feel new, like the bedroom, kitchen, living room, or study.
- **Affordable:** The MepiLivs Snowdool Fragrance Warmer costs only \$7.99, making it a cheap choice for anyone who wants to add scent and mood to their home.

SETUP GUIDE

- **Unbox the Warmer:** Take the wax warmer out of the box and make sure that all of its parts are inside, including the warmer unit, the 20W bulb, and the glass dish.
- **Pick out the Place:** This is where you should put the warmer so that it is safe from kids and pets and easy to plug in.
- **Put in the Bulb:** Before you use the wax warmer, make sure the 20W bulb is firmly put in place.
- **Put the Warmer in the plug:** Plug the warmer straight into a wall plug that is vertical. Make sure the socket is stable so that it can hold the warmer.
- **Add Wax Tarts:** In the glass dish on top of the warmer, put your favorite wax tarts or essential oils.
- When you turn on the power, the wax will start to melt. The heater will melt the wax and let the scent out.
- **Change the Location for the Best Scent:** Put the warmer somewhere the scent can move around easily, like near an open window or in the middle of the room.
- **Check the Strength of the Scent:** After a few minutes, see if the scent is strong enough. If you want to make it smell better, add more wax tarts.
- **Watch the Temperature:** While the warmer is running, make sure you don't let it get too hot. The 20W light helps keep the temperature stable and safe.
- **Use in More Than One Room:** You can move the warmer to different rooms if you want to change the smell of different areas.
- **Use with Different Kinds of Wax:** You can try out different smells and enjoy a range of olfactory experiences by using the warmer with different kinds of wax tarts.
- **Safety Check:** Make sure the warmer is out of reach of kids and pets so they don't touch the hot surfaces by mistake.
- While not in use, turn off the power. If you don't need the scent anymore, do this to save energy and keep the bulb in good shape.
- **If You Need to, Replace the Wax:** If the smell fades or the wax stops working, get rid of the old wax and put in new tarts to keep enjoying the scent.
- **Clean the Warmer After Every Use:** To keep the warmer in good shape, clean the glass dish after every use to get rid of any wax residue.

CARE & MAINTENANCE

- **Remove When Not in Use:** To save energy and make the bulb last longer, always remove the wax warmer from the wall when it's not in use.
- **Clean the Glass Dish Often:** Rinse the glass dish with water after each use to get rid of any wax buildup. This will keep the scent quality and keep the clogs from happening.
- **When the smell goes away, replace the wax tarts:** To keep the nice scent, do this when the scent goes away or when the wax stops melting properly.
- **Check for Damage:** Check the warmer often for any signs of wear, especially on the cord and bulb, and repair

them if needed.

- **Use Only Wax That Works With Warmers** : To keep wax warmers safe and from getting too hot, only use wax tarts or oils that are made to work with warmers.
- **Don't use harsh cleaning products**: To keep the crystal pattern from getting damaged, clean the warmer with a soft cloth and mild soap.
- **Check the Condition of the Bulb**: Look at the bulb every so often for signs of burnout. If you need to, you can replace it with a compatible 20W light.
- **Don't use the warmer right away**: Instead, put it somewhere dry and cool to keep it safe from dust and damage.
- **Be Careful**: Don't drop the warmer, because the crystal parts could break. Always be gentle with it.
- **If the wax has set in the glass dish or warmer**, heat it for a short time to make it easier to remove.
- **Don't Overfill the Glass Dish**: Don't put too much wax in the dish; a small amount is enough to release the scent, and too much can cause it to spill.
- **Avoid Direct Contact with Water**: Do not put the warmer in water. Use a wet cloth to clean it, but don't put it in water.
- **Keep Away from Kids and dogs**: To avoid burns or accidents, make sure the warmer is in a safe, stable place away from kids and dogs.
- **Check to See If New Wax Tarts Will Work**: Before using any new wax tarts, make sure they will work with the warmer without getting clogged or getting too hot.
- **Replace Faulty Parts**: If the bulb or power wire is broken or not working, you should replace them right away to keep the device safe and working properly.

TROUBLESHOOTING

Issue	Possible Solution
Warmer does not turn on	Ensure the warmer is plugged in properly.
Wax does not melt	Check the bulb for burn-out; replace if necessary.
No fragrance release	Ensure you're using high-quality, aromatic wax melts.
Wax spill over the sides	Use only the recommended amount of wax.
Bulb burns out quickly	Consider using the warmer for shorter periods.
Warmer gets too hot	Turn off the warmer after a few hours of use to avoid overheating.
Unpleasant smell while warming	Clean the warmer and remove any old wax residue.
The bulb is difficult to replace	Check for model-specific instructions on bulb replacement.
Fragrance intensity is low	Switch to a more potent wax or use a smaller room for better effect.
Power cord is frayed or damaged	Replace the cord or contact the manufacturer for a replacement.
Not enough light emitted	Verify the bulb wattage; use only recommended bulbs.
The warmer makes noise	Check for any loose parts inside the unit.
The warmer smells burning	Turn it off immediately and check for overheating or malfunction.
Wax buildup in warmer	Clean the warmer regularly to avoid wax buildup.
Difficult to find replacement bulbs	Contact customer support for compatible bulb options.

PROS & CONS

Pros:

1. Compact design ideal for small spaces.
2. Affordable price point at \$7.99.
3. Easy to use – simply plug it in.
4. Works well with various types of wax melts.
5. Quiet operation doesn't produce any noise while melting.

Cons:

1. Limited to smaller wax melt capacity.
2. No temperature control for precise melting.
3. May not work well in larger rooms.
4. Can get hot to the touch after prolonged use.
5. Some users report the bulb needs to be replaced frequently.

WARRANTY

The MepiLivs Snowdool Pluggable Fragrance Warmer typically comes with a 1-year manufacturer's warranty, covering any defects in material or workmanship under normal use conditions. It is advisable to check the warranty policy upon purchase for specific details on coverage.
