## Where to place your Symphony Classroom & Mounting Options

- Ensure you are able to see the top panel from places in classroom where you are most likely to talk to the device.
- Place your device within 6 ft of the display.
- Make sure nothing is blocking the Far field microphones and it is at least 5 ft from other noise sources.

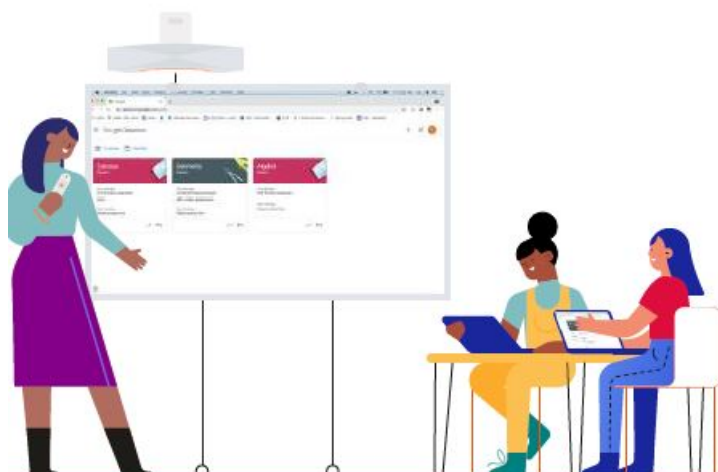

## Mount on a wall

Unit mounts upside down when attached to a wall, large format display or interactive white board.

## Mount on a display cart

## Place on a tabletop

## Stand Mount

## Set up

Before using the remote control, remove the tab inside the battery compartment to activate.

## Onboarding

Register teachers to use Symphony Classroom devices on the IT Admin Portal at [admin.merlyn.org](https://admin.merlyn.org)

Whitelist the following domains in your school or district's network/firewall configuration:

- <https://merlyn.org>
- <https://business.updatefactory.io>
- <https://www.loggly.com/> ngrok io for enabling support mode global stun twilio.com on port 3478  
ice.xioresearch.com on port 3478
- Turn the Symphony Classroom device on and follow the instructions on screen

- To learn how to install a wireless certificate on your unit, or to troubleshoot go to [merlyn.org/support](https://merlyn.org/support).

## Get started

Download and install the following software on each teacher's computer.

### Chrome Browser

You must use Google Chrome. Make sure it is set as your default browser.

### Merlyn Mind Chrome Extension

This allows control of your browser functions via remote and voice.

### Merlyn Mind Desktop App

The app always runs in the background to give your remote control accurate point, click and drag functions. The desktop app is not currently compatible with Chromebooks. The desktop app is not currently compatible with Chromebooks.
