Messagemaker Displays Araf Slow Warning Sign

Overview

The ARAF Slow Warning Sign is a highly visible and versatile LED sign designed to provide advanced warning to motorists of approaching hazards. It features an eye-catching printed reflective TSRGD sign, four flashing amber beacons, and a 'ARAF SLOW' message displayed in white LEDs. This bilingual sign is ideal for collision prevention and traffic calming.

About the Company

Messagemaker Displays Ltd is part of Stocksigns Ltd, dedicated to providing high-quality LED signs for road safety and traffic management.

Product Usage Instructions

Installation

The ARAF Slow Warning Sign is easily installed with three rows of sign channel. Follow the installation guidelines provided in the user manual to ensure proper setup.

Setting Trigger Speeds

As a user, you can configure the desired trigger speed for the sign. Refer to the user manual to adjust the trigger speeds according to your requirements.

Power Options

The sign can be powered using either 230V AC or 12V DC mains power. Choose the appropriate power source based on your installation environment.

EYE-CATCHING PERMANENT VAS SIGN WITH AMBER BEACONS, 'ARAF SLOW' MESSAGE & ANY TSRGD SYMBOL

- In a move to make roads safer, improve air quality and reduce road noise, many speed limits across the UK are being reduced from 30mph to 20mph. There are many speed enforcement initiatives being rolled out across Wales, which we will continue to support.
- LED Signs are becoming increasingly popular, as they are highly effective due to both visibility and versatility. Messagemaker Displays have created a versatile Welsh LED Sign in order to help make the Welsh roads safer.
- This sign acts as an advanced warning to motorists of approaching hazards, with an eye-catching printed reflective TSRGD sign, four flashing amber beacons and 'ARAF SLOW' message displayed in white LEDs. The bilingual sign will fit in with the majority of Welsh road signs and be a recognisable sign by all road users in Wales.
- The Vehicle Activated Warning Sign is ideal for collision prevention and traffic calming, and is easily installed with three rows of sign channel. The sign also gives you the flexibility, as the user, to decide which TSRGD symbol you wish to use, tailoring the device to your needs.
