Microsoft Presenter+ Remote Control User Guide

**Presenter+ Remote Control
User Guide**

Present, participate, and control meetings.

Take control of your hybrid life and workday. Effortlessly advance slides and focus the audience's attention on key content to deliver engaging presentations, in person or online. Quickly participate in your online team meetings with the push of a button to unmute and join the conversation. Certified for Microsoft Teams.

Contents

Top Features and Benefits

- Present like a pro in person or online. Advance slides or go back during your presentation.

  Direct your audience's attention, focusing their eyes on key slide content with the screen pointer while presenting.

- Tired of hearing 'you're on mute'? So are we. Integrated control with status light ensures you don't get caught talking to yourself.

- Join the conversation when you're ready. Microsoft Presenter+ is Certified for Microsoft Teams, so you can quickly join a meeting and raise your hand to participate with the integrated Microsoft Teams button.

- Reliable control, at your desk or across the room. Present from almost anywhere with Bluetooth connectivity, a wireless range up to 32 feet/ 10 meters, slim design, and up to 6 days of battery.

- Compatibility and control. Microsoft gives you more of both. Works with popular presentation and meeting apps Plus, Microsoft Presenter+ is the first presentation control to be Certified for Microsoft Teams, meeting specific product quality and testing standards, with integrated app controls for an enhanced experience.

- Customize your experience. Programmable button gives you more control to enhance your presentations and day-to-day meetings.

- Helpful cues you can feel for reliable control during meetings, such as a reassuring vibration when you go on/off mute or raise/lower your hand.

- Convenient charging. Included charging stand sits on your desk, or easily charge on the go using USB-C connection.

1. Battery life may vary based on user and computer conditions

2. Some accessories and software sold separately.
3. Available exclusively on Windows 10 and 11 devices. Use the Microsoft Accessory Center to customize MS Presenter + and set preferences for haptic feedback.
4. Battery life varies significantly based on usage, settings and other factors. Testing conducted by Microsoft in September 2022 using preproduction devices. Testing consisted of connecting each device to a host via Bluetooth and measuring battery discharge associated with a mixture of active use and standby scenarios. All settings were default settings.
5. Available exclusively on Windows 10 and 11 devices. Use the Microsoft Accessory Center to customize MS Presenter + and set preferences for haptic feedback.
6. Microsoft's Limited Warranty is in addition to your consumer law rights.
