## Millenium MPS-750X E-Drum Set Monitor Bundle

### **Safety instructions are DANGER!**

The danger for children Ensures that plastic bags, packaging, etc. are disposed of properly and are not within reach of babies and young children. Choking hazard! Ensure that children do not detach any small parts (e.g. knobs or the like) from the unit. They could swallow the pieces and choke! Never let children unattended use electrical devices. The plasticizer contained in the rubber feet of this product may possibly react with the coating of your surface and after some time cause permanent dark stains. In case of doubt, do not put the rubber feet directly on the surface and use a suitable underlay if necessary, i.e. felt-pad floor protectors or similar.

### Assembling the rack

#### CAUTION

Danger of cuts on hands and fingers when connecting the parts, take care for sharp edges on the metal tubes, screws etc.

1. Attach the clamp (4a) of the snare crossbeam (4) to one of the two lateral support tubes (1).
2. Then tighten the wing nut of the clamp (4a).

1. Fasten the two lateral support tubes (1) in the fastening clamps of the horizontal connecting tube (3).
2. Then tighten the wing nuts of the fastening clamps.

1. Attach the crossbeam for the snare (4) to the left support tube (1).
2. Then tighten the wing nut of the fastening clamps.

1. Attach the two crossbeams (5) to the two lateral support tubes (1).
2. Then tighten the wing nuts of the fastening clamps.

1. Fasten the two support tubes for the crossbeams (2) in the fastening clamps of the crossbeams (5).
2. Then tighten the wing nuts of the fastening clamps.

1. Fasten the two lateral support tubes (1) in the fastening clamps of the horizontal connecting tube (6).
2. Then tighten the wing nuts of the fastening clamps.

1. Attach the two connections for the cymbal holder (8) and the cymbal holder (7) to the two lateral support tubes (1).
2. Then tighten the wing nuts of the fastening clamps.

1. Attach the sleeve for the mounting bracket (9) and the mounting bracket (10) in the bracket for the snare on the crossbeam (4).
2. when attach the sleeves for the mounting rods (9) and the mounting rods (11) in the holders for the tom pads on the right crossbeam (5) and on the horizontal connecting tube (6).
3. Then tighten the wing nuts of the brackets.

### **Mounting tom pads on the rack**

### Mounting cymbals on the rack

1. Unscrew the wing nuts from the cymbal holders (7) and take the felt washers off the holders.
2. Place the cymbals (13, 14) as shown in the figure on the holders. Be sure to attach the crash pad (12") to the left holder and the ride pad (14") to the right cymbal holder.
3. Place the felt washers on the cymbals (13, 14) and fix the cymbals with the associated wing nuts on the holders.

### Mounting the Hi-hat on the rack

1. Screw on the wing nuts of the hi-hat tripod with pedal (19) and open the feet. Then tighten the wing nuts of the brackets.
2. Insert the hi-hat holder (20) into the hi-hat tripod with pedal (19) and tighten the holder clockwise.
3. Unscrew the wing nuts from the Hi-hat holder (20) and take the felt washers off the holders.
4. Place the Hi-hat (12) as shown in the figure on the holder.
5. Place the felt washers on the cymbals and fix the Hi-hat (12) with the associated wing nut on the holder.

### Setting up the bass drum pedal

1. Screw the bass drum pad and the associated foot (17) with the supplied screws using the drum key (23).
2. Engage the bolt of the foot machine (18) into the provided recess on the bass drum pad (17).

### Mounting the drum module on the rack

1. Put the drum module (21) up to the stop into the free bracket of the left crossbeam (5). Insert the D-sub plug of the multiple cable (22) into the provided socket on the bottom side of the drum module.
2. Tighten the D-sub plug with the hand screws.
3. Align the module and tighten the wing nut of the bracket.

### **Bass Drum positioning**

- Place the pedal with the bass drum pad centered under the rack. Position the bass drum pedal centered in front of the pad.

### **Set-up and cabling**

Set up the rack, the pads and the cymbals according to your needs. Finally, position the pedal with the bass drum pad in front of the rack and connect all trigger cables to the e-drum module. The skin tension of the mesh heads is relatively low in the delivery state in order to avoid damage during transport. For good playability and better trigger behavior, adjust the skin tension to your playing habits.

### **Protecting the environment**

#### **Disposal of the packaging material**

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.

#### **Disposal of your old device**

This product is subject to the European Waste Electrical and Electronic Equipment Directive (WEEE) in its currently valid version. Do not dispose of with your normal household waste. Dispose of this device through an approved waste disposal firm or through your local waste facility. When discarding the device, comply with the rules and regulations that apply in your country. If in doubt, consult your local waste disposal facility.

### **Documents / Resources**

 <p>The image shows the cover of the instruction manual for the Thomann Millenium MPS-750X E-Drum Set Monitor Bundle. It features a black and white photograph of the drum set, which includes a bass drum, snare drum, and several toms.
