Contents

MINELAB PRO-FIND Pinpointer Metal Detectors

Product Information

The product is a detection device with various features designed to help users locate objects. It includes a detection area, an LED flashlight, a speaker, a power button, and a plus button for adjusting settings. The device also has audio capabilities for providing feedback while in use.
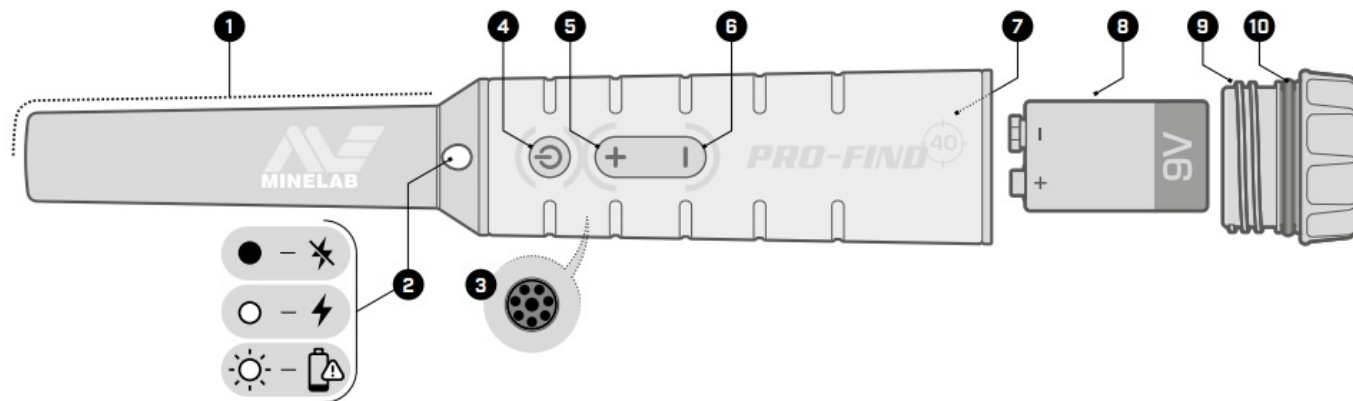

Product Usage Instructions

1. To turn on the device, press and hold the power button for at least 0.5 seconds.
2. To turn off the device, press and hold the power button for more than 0.5 seconds.
3. To adjust the sensitivity, use the plus button to select from 5 different levels.
4. To enable audio feedback, select the "Enable Audio" option.
5. To disable audio feedback, select the "Disable Audio" option.
6. To activate target audio, choose the "Target Audio" option.

7. To enable ferrous audio feedback, select the respective option.
8. To disable ferrous audio feedback, select the respective option.
9. To perform a rapid re-tune, follow the instructions provided.
10. If the alarm is inactive for more than 5 minutes, it will be deactivated.
11. To perform a factory reset, follow the instructions provided.

Please refer to the user manual for more detailed instructions and information.
