**LCD-PM1011 LCD Electronic Shelf Label**

## BRIEF INTRODUCTION

LCD electronic shelf labels are smart display devices designed to replace traditional paper price tags. Utilizing TFT LCD technology, they offer high-definition, full-color, and high-contrast displays. These labels can present a wide range of content, including videos, images, prices, QR codes, and text. With Wi-Fi connectivity, they enable real-time updating of product information. Available in both single-screen and dual-screen versions, these labels provide a flexible solution for modern retail environments.

## HIGHLIGHT

## Specifications

Screen size	10.1-inch
Dimension	242*155*12.6 mm
Weight	416 g±5g
Angle of view	IPS
Visible window	135*216 mm
Resolution ratio	800*1280
Viewing angle	178°
Storage	128 M
Picture format	jpg 480P 720P
Video	MP4、AVI、480P、720P
Operating temperature	0-50℃
Brightness	200-220 cd/m <sup>2</sup>
Storage temperature	-10-60℃
Operating humidity	40%--75%RH
Storage humidity	30%--85%RH
Power supply	DC9-28V
Power	4 W
Communication mode	Bluetooth /Wi-Fi 2.4G、5G
Online firmware upgrade	Support
Shell color	Black
COMPLIANCE	
Certification	FCC/CE/RoHS

installation methods

- Rail suspension wire rope method for mounting

## Packaging

Material of cardboard box	230g high-quality Niuka+180g high-strength core
Length, Width, Height	Specifications 15:48 * 35 * 43 cm
	Specifications 30:48 * 35 * 23 cm
Weight	15 single screens: 7391 g
	15 double screens: 8771 g
	30 single screens: 14289 g
	30 Dual Screens: 17049 g
Number of Packages	Can pack 15 or 30 products
Packaging Method	An inner box of 15 products or 30 products Foreign container

## FCC Requirement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### FCC Warning

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, under part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used by the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does Ccauseharmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for uncontrolled environments. This

equipment should be installed and operated with a minimum distance of 20cm between the radiator & your body.
