MINISO

MINISO A136 Portable Wireless Speaker

Specifications

Feature	Description
Model	Sanrio Characters Bluetooth Speaker
Size	42mm x 42mm
Material	ABS
Version	Bluetooth V4.2
Frequency	2.402-2.480GHz
Max. Power Output	3W
MIC Sensitivity	-32db
Receiving Sensitivity	Better than +82dBm
Distance	10m
Data Transmission	Up to 3Mbps
UART Data Transmission Rate	115200bps
Charging Voltage	4.8-5.5V DC
Working Voltage	3.7V-4.2V DC
Working Current	200MA
Quiescent Current	>1UA
Battery	300MAH
Charging Time	1 hour
Working Time	About 4 hours
Frequency Band	2.4G ISM band

FAQ

- How do I pair my Bluetooth device with the speaker?
- Turn on the speaker and enable Bluetooth on your device. Select the speaker from the list of available Bluetooth devices to pair.
- What do I do if the speaker won't turn on?
- Ensure the speaker is charged. If it still does not turn on, refer to the troubleshooting section or contact customer support.
- Can I answer phone calls with this speaker?
- Yes, the speaker has a built-in microphone that allows you to answer calls when connected to a phone via Bluetooth.
- How long does the battery last on a full charge?
- The battery can last for about 4 hours of playtime on a full charge.
- Is the speaker waterproof?
- The precautions section advises against exposing the speaker to water, which suggests that it is not waterproof.

Introductions

DEAR CUSTOMER

Thank you for using Miniso Wireless Speaker. Please read this manual carefully before use. Using it properly for best product performance. MINISO Wireless Speaker has a stylish appearance, true-to-life sound and multiple functions. The whole series the patent of appearance design. The system adopting industry-leading technology enables you to enjoy excellent sound effects anytime at home, outdoors, during a trip or at work. It provides the perfect experience when you play music on your laptops, digital music players and other audio-visual players, leading you to a better life with beautiful music!

CAUTIONS

1. Store and use at room temperature.
2. Do not be exposed to rain or moisture.
3. Do not throw the product to avoid damage caused by dropping.
4. Do not disassemble, modify or repair the product yourself.
5. This product is equipped with an irreplaceable built-in lithium battery. Do not discard it or toss it in the fire to avoid danger.
6. To prevent performance from being interfered with, keep away from strong magnetic objects.
7. If you are not going to use it for a long time, charge the speaker once every 3 months to extend the lifespan of the battery.

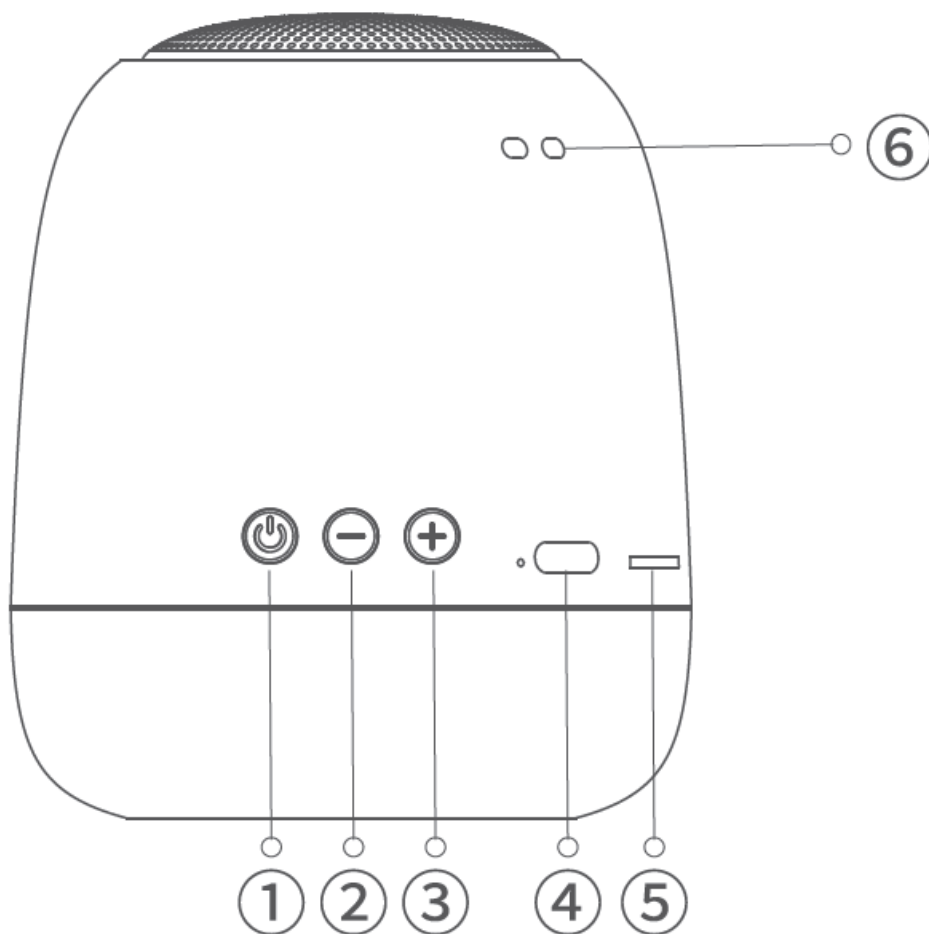

PRODUCT PARAMETERS

- **Bluetooth:** Bluetooth V5.0
- **Pairing Name:** MINISO-A136
- **Charging Input:** USB-C, DC 5V
- **Battery:** Lithium Battery1200mAh
- **Frequency Range:** 60Hz ~ 18KHz

- **Charging Port:** USB-C
- **Transmission Distance:** 10m
- **Music Playback Time:** Around 4h (70% Volume)
- **Charging Time:** Around 2h

Overview

1. Power/Play/Pause
2. Volume-/Previous
3. Volume+/Next
4. USB-C Port
5. TF Card Slot
6. Hanging String Hole

TROUBLESHOOTING

1. The wireless speaker is unable to be paired with the cell phone.
Solution: Confirm if the wireless speaker is in pairing mode and if the Bluetooth on your phone is toggled on. Then delete the product from the list, and pair it with your phone again according to the User Manual.
2. The wireless speaker is unable to be turned on.
Solution: Confirm the battery level.
Charge the speaker if it is needed.
3. Can the battery of the wireless speaker be replaced?
Solution: No, this is a lithium polymer battery, which is irreplaceable.
4. Can I use the wireless speaker at a high volume for a long time?
Solution: To extend the lifespan of the wireless speaker, it is not recommended to play it at a high volume for a long time.
5. The link between the wireless speaker and the cell phone has been disconnected within 10 meters.
Solution: Bluetooth is wireless so it is very sensitive to objects between the speaker and the connected device. Check if there are any metal or other objects that may affect connection within the effective distance.
6. Cannot hear audio playing when the speaker is connected to the computer or phone.
Solution: Check whether the computer's audio output is already connected to a wireless device and whether the Bluetooth in the computers supports the A2DP protocol. Make sure the volume is up on your phone or computer.
7. Can I operate the Apps on my phone through the speaker after pairing the wireless speaker with the phone?
Answer: Some apps may not support being operated through the speaker due to their settings.

FCC STATEMENT

This device complies with Part 15 of the rules, Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, under Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used per the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. Suppose this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. In that case, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and the receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
