Pairing with the LetSmart App

LetSmart App

Getting Started

Welcome to the LetSmart App for controlling your Water Filtration System!

Pairing with the LetSmart App

Step 1: Download the LetSmart App

Scan the QR code below or search "LetSmart" in your app store:

Step 2 Pair with the Water Filtration System

Wi-Fi connection must use a 2.4 GHz network. If your Wi-Fi router supports both 2.4 GHz and 5 GHz but you can only find the 5 GHz network, the device will automatically connect to the 2.4 GHz network.

1. Open the App, sign or log in to your account. Enable Bluetooth and Wi-Fi permissions on your phone.

2. Make the device ready for pairing, indicated by the Wi-Fi icon 📶 flashing on the device display.

- When powered on, the device automatically enters pairing mode.
- If the Wi-Fi icon is not flashing, click the WiFi button.
- If your device has been paired, press and hold the WiFi button for 5 seconds.

3. On the homepage, click the "+" icon at the top right (Figure 1-1), then click "Add Device" (Figure 1-2). Enter the WiFi configuration page, select your home Wi-Fi, enter the password, and click "Next" (Figure 1-3). Wait for about a minute for the pairing to complete (Figure 1-4).
