Product Specifications

Main Control MCU: CX8162

Keyboard Key Switch Lifespan: 2,000,000 clicks

Battery: 150mAh Lithium Battery

Power Consumption: 5V

Product Dimensions: 282.1*94.50*8.80mm

Product Weight: 168.5g

Number of Keys: 67 keys

Compatible Systems: Windows, Mac, Chromebook

One-Year Warranty

Thank you for your purchase, and we take pride in the quality of our products. MKETech Electronics product warranty does not cover any device or product that is not manufactured by MKETech Electronics (including, but not limited to laptops, smartphones, devices, or any other product that may be used in conjunction with the MKETech Electronics product). MKETech Electronics warrants to the original purchaser that its products are free from defects in materials and workmanship during the specified warranty period and will remain in like-new condition for as long as the original purchaser owns the product.

The warranty period is indicated on the MKETech Electronics product's packaging or in the provided documentation.

MKETech Electronics Limited Product Warranty excludes damage caused by accidents, misuse, improper use, neglect, unauthorized

Warranty Terms

1. This warranty is applicable to the original purchaser and is non-transferable.
2. A proof of purchase (receipt or invoice) must be provided to make a warranty claim.
3. This warranty covers manufacturing defects and failures occurring under normal and expected use of the

mouse. It does not cover damage resulting from accidents, misuse, improper use, neglect, unauthorized modifications, or unauthorized repairs.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement: The device has been evaluated to meet general RF exposure requirement.

The device complies with FCC radiation exposure limits set forth for an uncontrolled environment. The device can be used in portable exposure condition without restriction.
