Instructions

Bluetooth Mode

Laptop Bluetooth Mode :

1. Switch from "ON/OFF" button to left(Bluetooth Mode)
2. Turn on the laptop Bluetooth function: Setting-Device – Add Bluetooth or other Device – Click Bluetooth –

    Searching "BT5.1 Mouse "and pair.

Tablet Bluetooth Mode:
(Note: please make sure your tablet operating system is Android 5.0 and later or i0S13 and later) Switch from "ON/OFF" button to left(Bluetooth Mode). Click Settings–Bluetooth–Turn on Bluetooth —Search " BT5.1 Mouse" and pair.
Note: if the Bluetooth cannot connect the mouse or the mouse key does not appear after connecting the Bluetooth, please activate it through this path: Setting – Accessibility – Touch -Assistive Touch – Turn on 'Mouse Key"

2.4G Mode

1. Take off the receiver from the bottom of the mouse
2. Plug the receiver into the USB port of your computer
3. Switch from 'ON/OFF" button to right(2.4G Mode), then you can use the mouse in 2.4GHz Mode

   Note: the receiver can be reserved on the bottom of the mouse after using , prevent losing it.

Bluetooth Wireless Dual Mode Mouse

One Mouse, Two Devices
The wireless mouse features a dual-mode connection, connects one device by Bluetooth and the other through2.4GHz USB. Just toggle the Bluetooth 2.4GHz Mode switching, you can switch free to control the devices respectively.
(**Note:** you can't use Bluetooth mode and 2.4G mode at the same time.)
Note: If you are using a desktop computer, it is recommended that you plug the USB receiver into the host computer so that you can use it Bette.

Frequently Asked Question

1. It's out of power if the mouse LED lights stop. Please recharge it.
2. After completing the first pairing of the mouse and computer, you do not need to pair it again when you use it later. Turn the mouse switch to the position indicated by Bluetooth and double-click the right button to pair with your computer successfully.
3. If the computer cannot find the Bluetooth mouse during pairing, you need to confirm if the switch on Bluetooth mode, then power on the mouse again. Please confirm whether the Bluetooth mouse is connected to other

computers. If it is already connected to other computers, please remove the connection firstly, and then follow the above steps to pair again.

4. If you don't want to pair with the Bluetooth mouse, in the "Bluetooth and other devices" interface, click the BT5.1 mouse to delete the device and select Yes.

5. To save power and provide long-term usage, the wireless mouse will fall asleep after 10 minutes of no-operation. It can waken up by click any button.

6. If you do not use the mouse for a long time, please turn off the OFF" button to save power.
