Desktop

Image Slide Application

Windows 10 start image: On the start screen, you can see many programs fixed in the image. These application programs are displayed in the form of a “magnet”. You need to log on to your Microsoft account before the application program completely runs

Cortana

Use Cortana for fast smart searching.

Introduction to App Interface

Besides the application programs already fixed on the “start” screen, you can also fix other applications, programs, folders, etc to the “start” screen.

If you want to fix more application programs on the start interface, see the operation in the figure below. In the start menu, right-click the application you want to fix and select “Pin to Start”.

You can also drag the application onto the “start” screen, as follows:

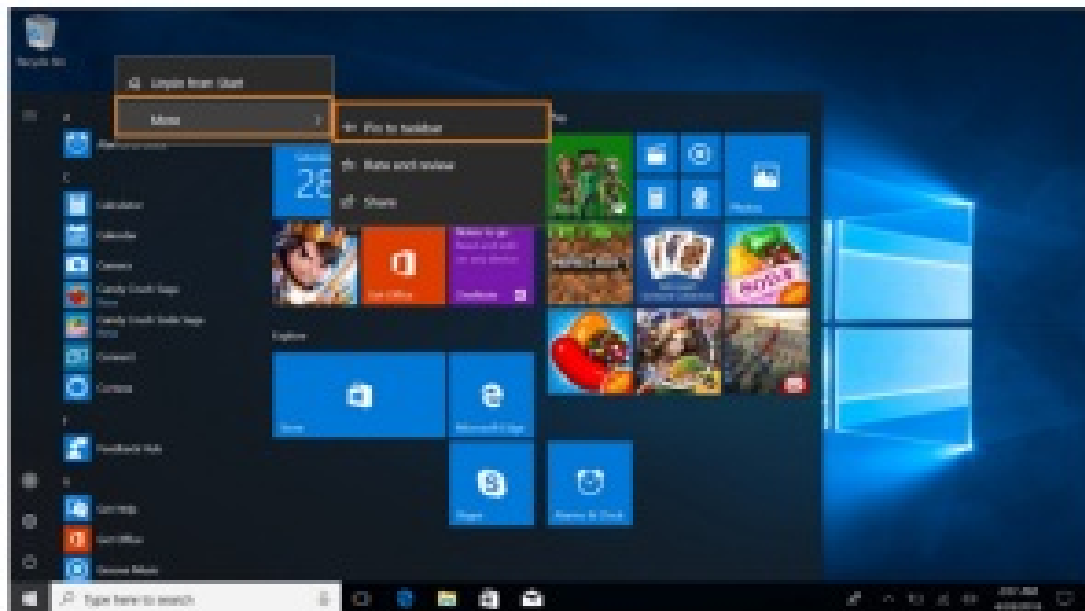

Conversely, if you want to cancel or delete a certain application in the start screen:

- (1) Right-Clicking the application
- (2) Click the “Unpin from Start”.

If you want to fix more application programs on the taskbar, see the operation in the figure below. In the start menu, right-click the application you want to fix and select “More”, and then select “Pin to Taskbar”. You can also drag the application onto the “start” screen, as follows:

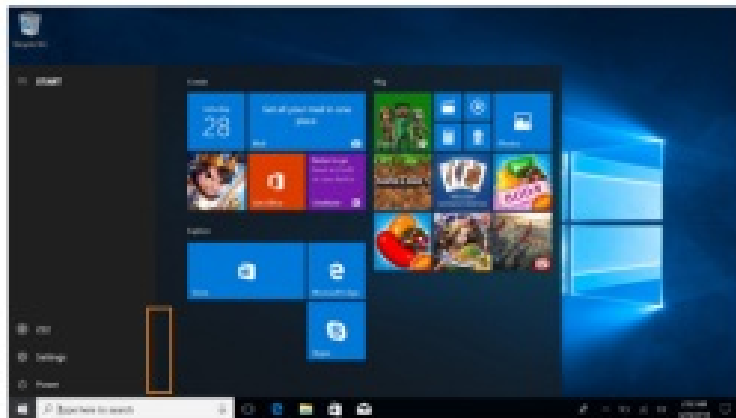

Conversely, if you want to cancel or delete a certain application in the taskbar:

- (1) Right-Clicking the application
- (2) Click the "Unpin this program from taskbar".

3.6 Start Menu

Under PC mode, press the Start icon, Start Menu will display including Start, Device, Setup, Share, and Search Program.

  	Power, Settings, Account
	Account Settings, Lock, Sign Out
	Sleep, Shut Down, Restart

Search Menu

Action Center

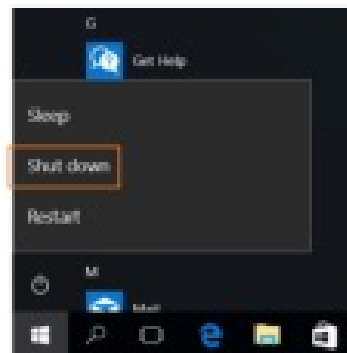

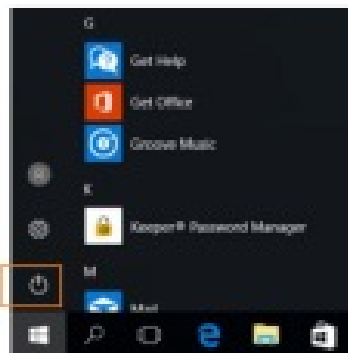

Action Center is a notification center that also allows for quick settings like Tablet / PC mode, Wi-Fi, Bluetooth, etc.

Multitasking Operating Interface

If you click the Task View(or press the icon ), the running applications will be displayed. We can enter the application, which also can be deleted.

Sleep, Shut Down, Restart
