MOEN GXP33C Compact Continuous Feed Garbage Disposal

Description

The Lite™ Series is designed for homeowners who do just a little cooking and want clean-up to be as quick and easy as possible. Built with a compact design and a powerful, high-speed motor, the Lite Series GXP33C PRO disposes of food scraps, like fruit skins, cereal, and other soft foods. Plus, the 360° Clean Rinse system provides a better rinse for a fresher kitchen. The Lite Series GXP33C offers a slim profile to take up less space under the sink, installs easily on most existing 3-bolt assemblies, and is backed by a 5-year limited warranty with in-home service.

Product Features

- Exclusive 360° Clean Rinse eliminates odors by rinsing away food scraps more effectively.
- Easy-lift installation system allows for simple, quick connection and enhanced comfort when under the sink by allowing one hand to mount the hardware while the other provides support for the disposal.
- Vortex™ Technology provides fast, powerful grinding of everyday food scraps and helps reduce jamming.
- High-speed motor made from stainless steel and galvanized components.
- Comes with a pre-installed removable power cord that is easy to remove or optional hardwiring. A savings over models where cord must be purchased separately.
- Preloaded dishwasher inlet allows for more efficient drainage.

Warranty & Assurance

5-year limited warranty with in-home service. Safe for use with properly sized septic systems. Disposals reduce waste sent to landfills, making them a more sustainable option for your home.
