How to Reset/Re-pair ZigBee code

- Press and hold the button for about 10 seconds, until the indicator on the switch flash fast. Reset/Re-pair is successful.

Add Devices

1. Download MOES App on App store or scan the QR code.

<https://a.smart321.com/moeswz>

MOES App is upgraded as much more compatibility than Tuya Smart/Smart Life App, functional well for scene controlled by Siri, widget and scene recommendations as the fully new customized service.

(Note: Tuya Smart/Smart Life App still works, but MOES App is highly recommended)

2. Registration or Log in.

- Download “MOES” Application.

- Enter the Register/Login interface; tap “Register” to create an account by entering your phone number to get verification code and “Set password”. Choose “Log in” if you already have a MOES account.
3. Configure the APP to the switch.
- Preparation: Ensure the switch has been connected with electricity; ensure your phone has been connected to Wi-Fi and is able to connect to the Internet.

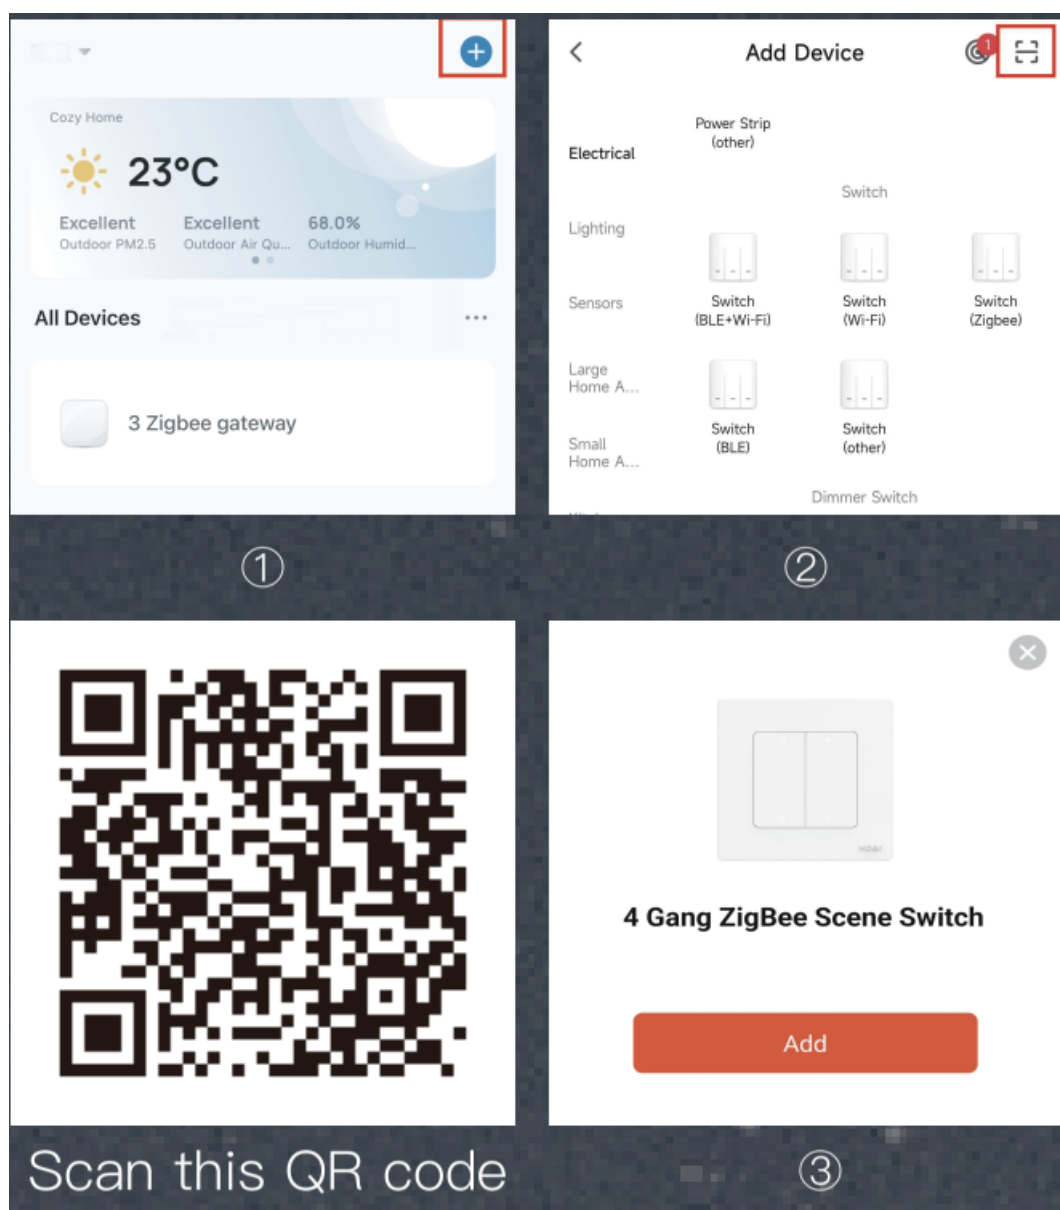

APP Operation

Note: ZigBee gateway needs to be added before adding devices.

Method one:

Scan the QR code to configure the network guide.

1. Make sure your MOES APP has successfully connected to a Zigbee gateway.

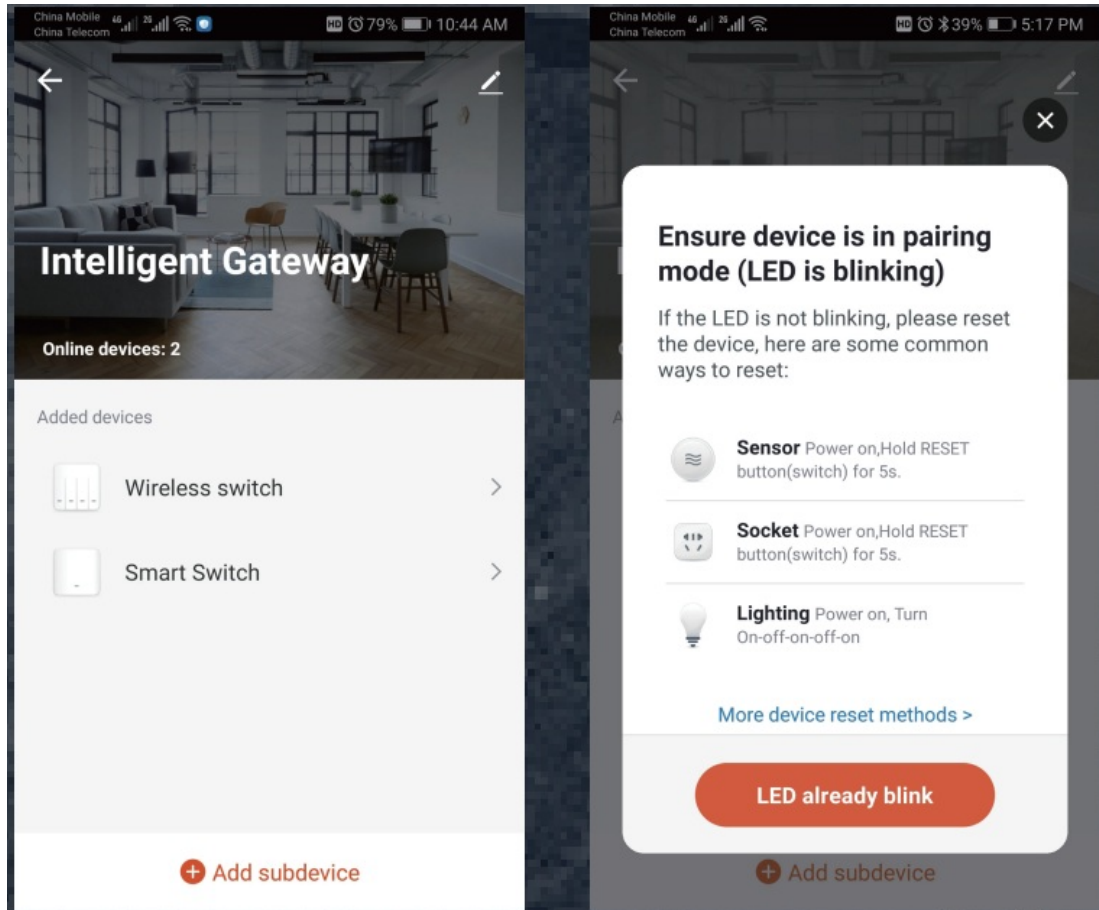

<https://smartapp.tuya.com/s/p?p=a4xycprs&v=1.0>

Method Two:

1. Connect the device to the power supply press and hold the button for about 10 seconds, until the indicator on

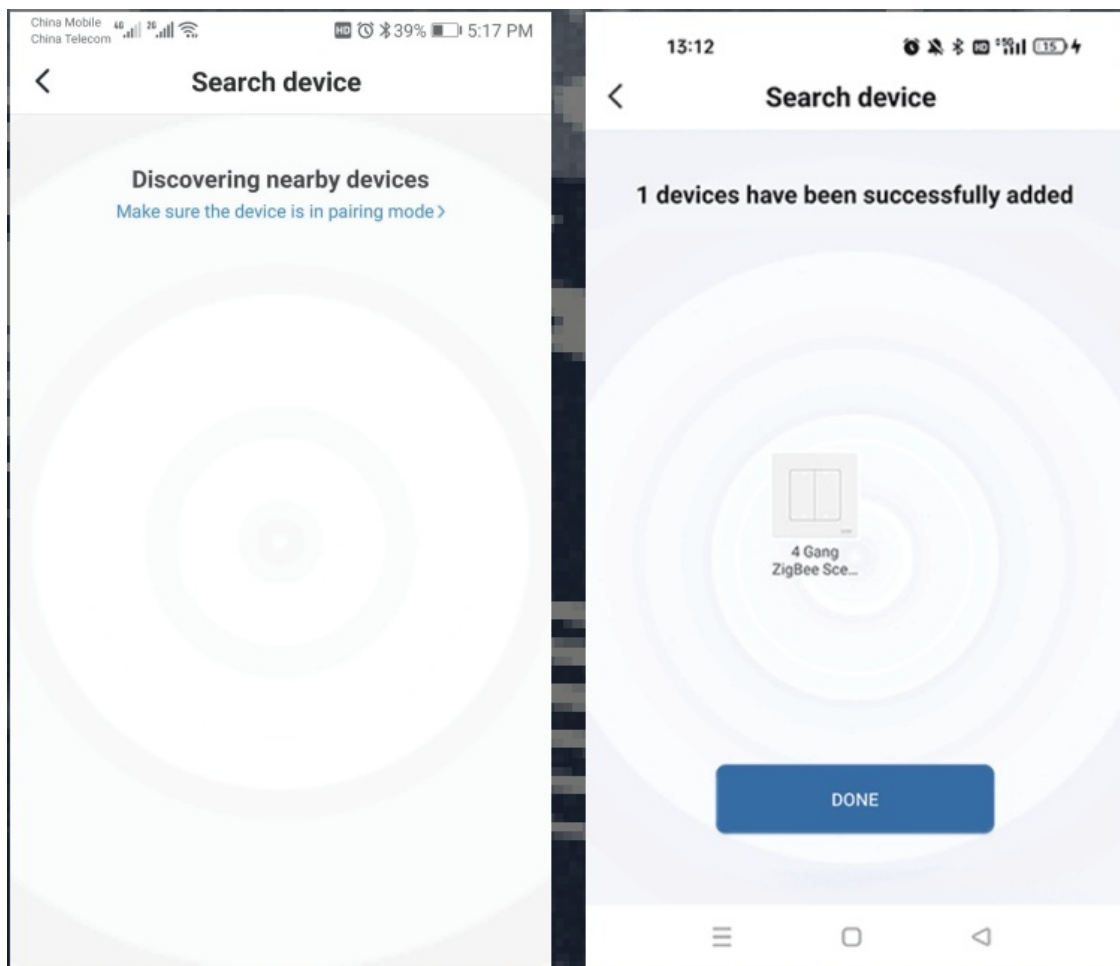

the switch flash fast.

2. Ensure that the mobile phone is connected tussah network. Open the app, on the “smart gateway” page, click “add sub device”, and click “LED already blink”.

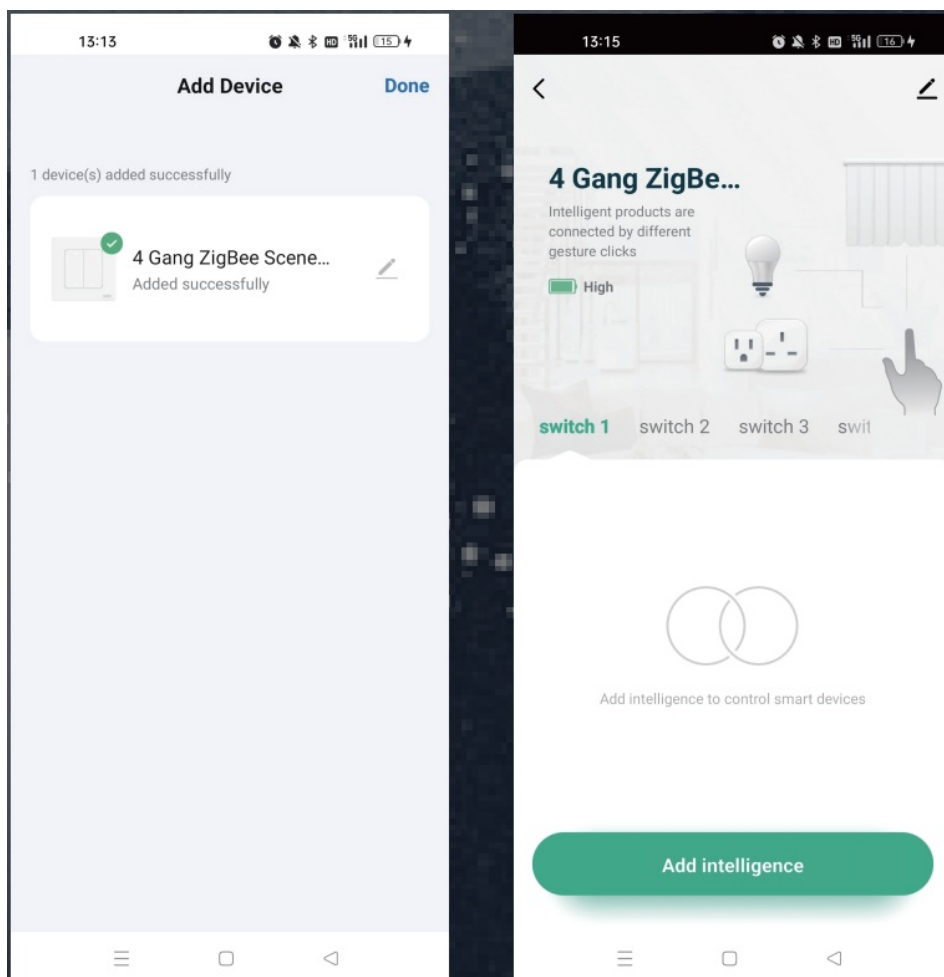

3. Wait for device networking to succeed, Click “DONE” to add the device successfully.

***NOTE:** If you fail to add the device, please move the gateway closer to the product and reconnect the network after powering on.

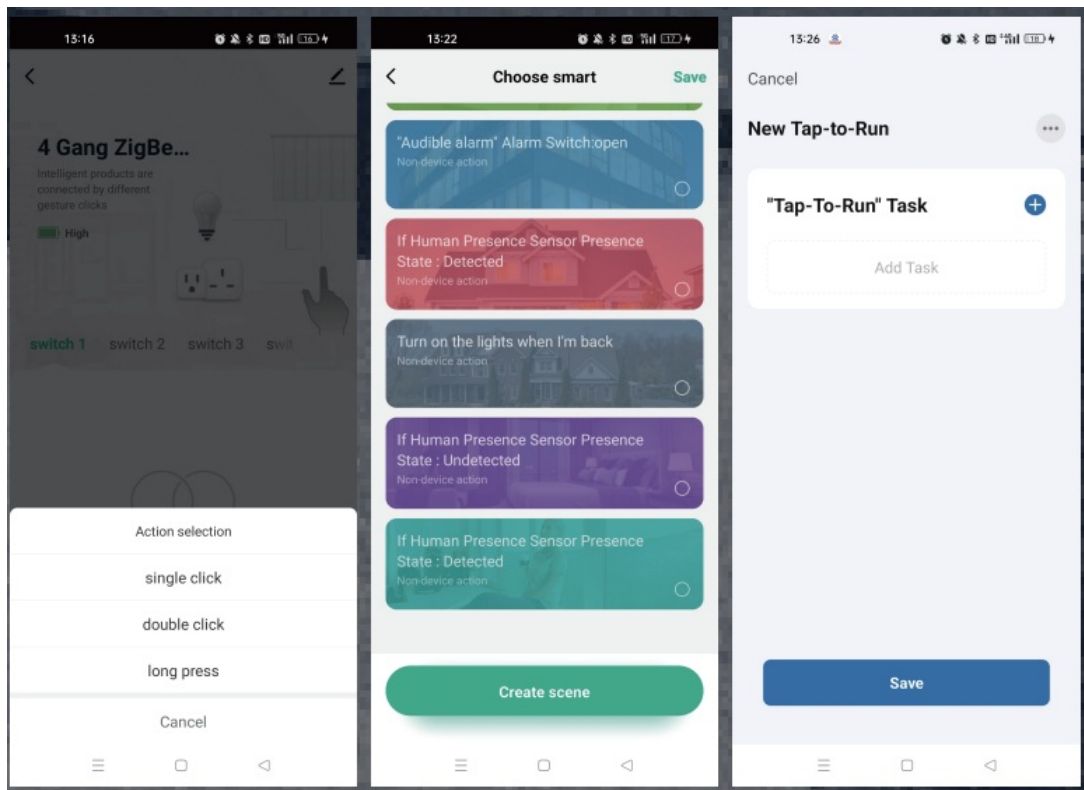

4. After connecting the network successfully, you will see the Intelligent Gateway page, choose the Device to enter the controlling page, then choose “Add intelligence” enter to the setting mode.

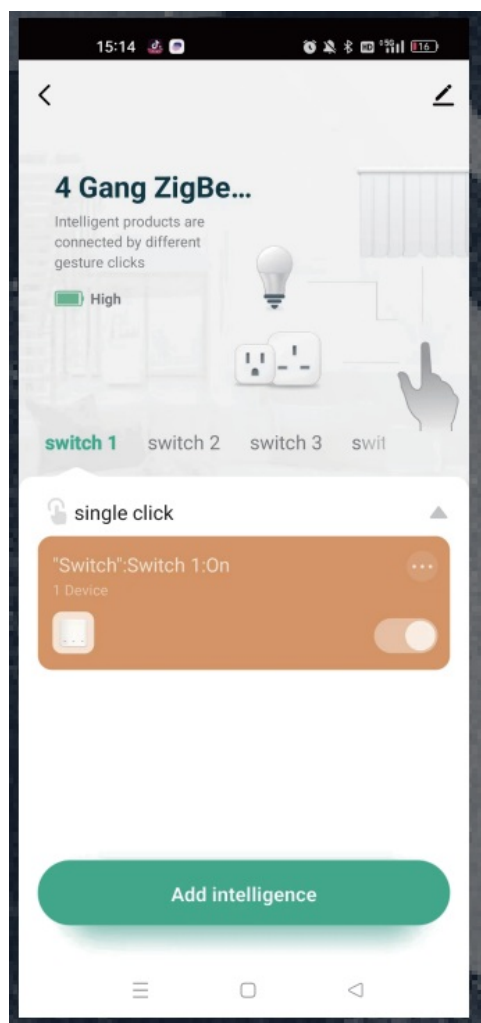

5. Choose “Add condition” to choose the controlling condition, such as “Single click”, Select an existing scene, or

click “Create scene” to create a scene.

6. Save your collocation, the you could use the scene switch to control the device.
