CLEANING AND MAINTENANCE OF THE PRODUCT

1. Regularly check the locking devices, brakes, safety belts and buckles, connectors, and fixing mechanisms to be sure that they are in good working order and are not worn or damaged.
 2. If you find loose, broken, and damaged parts, they should be repaired by an authorized service or replaced with original parts. Otherwise, the warranty of the stroller will be annulled.
 3. Do not make modifications to the construction and do not replace the work parts with ones that are not suitable and are not original. This may lead to incorrect functioning of the stroller and injury of your child. And also to annulment of your warranty of the stroller.
 4. To clean the cover, the dirty plastic and metal parts of the product, use a soft cotton cloth or sponge, wetted with water.
 5. Never clean with agents containing abrasive particles, ammonia, bleach, or alcohol. DO NOT wash in the laundry the removable and accessories – parts and accessories – canopy, etc., because this may lead to their damage. Otherwise, the warranty will be annulled.
 6. Always after cleaning leave the stroller to dry completely and afterwards use it or store it.
 7. Store the stroller indoors. The effects of the environment – sea air, roads sprinkled with salt, acid rains, etc., as well as the storage outdoors, lead to the emergence of corrosion.
 8. Do not store the stroller in a humid environment. In case you have used the stroller in a humid environment, you should unfold it, wipe it with a dry cloth, and let it dry completely naturally. Mold can appear if you store it while wet.
 9. Too much sunlight will affect the aging of the stroller parts and the fabric.
 10. Do NOT place other objects inside the stroller – luggage, bags with goods, handbags, etc. when you use it or store it, because this could damage the stroller and may lead to harm to your child inside of it.
- Not following this instruction will lead to guarantee cancellation.
