2. After successfully connecting the Bluetooth device, the Bluetooth icon will become always on, and the player's speaker will be turned off at this time.

3. When there are several Bluetooth devices waiting to be connected nearby, the player will automatically select the one with the best signal to connect, if you need to connect to a specific device, you can turn off the other devices that do not need to be connected.

4. Bluetooth transmitter function is supported in CD, USB, FM mode, but not in AUX and Bluetooth audio mode.

Troubleshooting

Problems	Reasons	Solutions
Cannot be turned on.	Power Switch is not turned on.	Please turn the OFF/ON button on the side to ON.
	The battery is exhausted.	Charge the player.
	The player is damaged.	Please contact us or ask a professional for repairs.
Cannot read discs.	The disc is installed incorrectly.	1. Make sure the label side of the disc is facing up; 2. Ensure the disc is inserted fully into the place.
	The disc cannot be recognized.	The player is only compatible with CD, CDR, MP3, HDCD formats.
	The disc is dirty or damaged.	1. Make sure the disc is not heavily scratched or damaged; 2. Wipe the disc gently from the center radially out to the edge with a clean & soft cloth; 3. Try another new disc to check if the disc is faulty.
	The loader is dirty.	Wipe the lens gently with a degreasing cotton swab. NOTE: DO NOT TOUCH THE LENS WITH YOUR HANDS.
Cannot charge battery.	There is no current at power outlet.	Make sure the power outlet is working.
	The plug is not plugged in correctly.	Make sure that the two plugs of the power cords are connected properly.
	The charger is damaged.	Replace the charger with another one matching the specification (DC 5V/2A).
	The player is damaged.	Please contact us or ask a professional for repairs. NOTE: While charging, please make sure that the Power source and the Charging voltage are DC 5V/2A. Excessive voltage input may cause machine overload damage.
Automatically skips part of the contents of disc.	The player has MODE function (Repeat, Repeat all, Random play, Preview play), Preview play means that only 10 s per track will be played.	Please ensure the Preview play MODE is off
Noisy and screaming when it plays.	Usage time of the disk may be too long, so the disk is not smooth.	1. Make sure the disc is not heavily scratched or damaged; 2. Wipe the disc gently from the center radically out to the edge with a clean & soft cloth; 3. Try another new disc to check if the disc is faulty.
	If there is a "Jiji" sound inside the earphone, it may be caused by scratching of the disc.	Please change to another disc, and do not use the old one again to prevent the player from damage.
