monport LRA-0730 Rotary Axis Attachment

# **Specifications**

Operation

Input Voltage: 24 VRated Power: 10 WProduct Dimensions:

Roller Length: 10.4 in. (26.4 cm)Fixed Roller Height: 2.9 in. (7.3 cm)

• Net Weight: 3.5 lb. (1.6 kg)

## **Product Usage Instructions**

## Installation

- 1. Place the rotary axis attachment on the workbed ensuring the laser head can move along the full X-axis range without obstruction.
- 2. Connect the rotary device's connection to the Y-axis port inside the engraver or the rotary axis port behind your engraver.

## Operation

- 1. Place your item gently on the rollers.
- 2. Use your engraver's control panel or engraving software to add your design, making necessary adjustments as you go.

### Maintenance

If you have any questions while reading the manual or setting up your machine, feel free to contact us at +1 (213)554-8829 or email <a href="mailto:support@monportlaser.com">support@monportlaser.com</a> for assistance.

## **FAQ**

· Can I use this rotary axis attachment with any engraving machine?

The rotary axis attachment should be compatible with most engraving machines, but it's recommended to check for compatibility with your specific model.

· How do I clean the rollers of the rotary axis attachment?

To clean the rollers, use a soft cloth dampened with water. Avoid using harsh chemicals or abrasive materials that may damage the rollers.

## **Safety Information**

- Keep this device clean and free of potentially flammable or reflective dust and swarf.
- DO NOT place body parts in or near the engraving path.
- ALWAYS wear appropriate personal protective equipment such as protective eyewear when operating your
  laser. If this device is being used on an open bed, it is also recommended to secure the worksite or erect
  protective screens around the laser path to prevent injury to passersby.
- DO NOT use this device with items too wide or long for its rails.
- DO NOT assemble or disassemble this device without proper training.

### Installation

- 1. Place this rotary axis on the workbed. Ensure that the placement allows the laser head to move along the full range of its X axis without obstruction.
- 2. Connect the rotary device's connection to the Y-axis port inside the engraver or the rotary axis port behind your engraver.

## **Specifications**

- Input Voltage 24 V
- Rated Power 10 W
- **Product Dimensions** 14.1×6.1×2.9 in. (35.9×15.5×7.3cm)
- Distance between Rollers 0.2–2.9 in. (5–73 mm)
- Roller Length 10.4 in. (26.4 cm)
- Fixed Roller Height 2.9 in. (7.3 cm)
- Net Weight 3.5 lb. (1.6 kg)

# Operation

- 1. Place your item gently on the rollers.
- 2. Use your engraver's control panel or your engraving software to add your design, making any necessary adjustments as you go.

## **Maintenance**

Clean this device with a soft moist cloth to remove any dust or debris that may accumulate. Allow time for any moisture to air dry before further use.
