MIW Wireless/Wired Connection Guide

	E		Bluetooth Device 1		Top: Mac (built-in power supply on)
	R		Bluetooth Device 2		Middle: Default Windows (bu
FN+	Т	=	Bluetooth Device 3		ilt-in power supply off)
	Υ		2.4G Wireless Device		
	U		Wired mode	The switch is located under the CAPS key	Bottom: Windows (built-in p ower supply on)

Bluetooth Pairing

After turning on the keyboard, press FN+E/R/T to enter Bluetooth mode. Press and hold the FN+E/R/T combination key for 3 seconds to put the keyboard in pairing mode, with the blue indicator light flashing quickly. Once the connection is established, the indicator light will stay on for 2 seconds. If the device fails to connect, the indicator light will turn off and the keyboard will enter sleep mode.

2.4G Pairing

After turning on the keyboard, press FN+Y to enter 2.4G mode. Then press and hold the FN+Y combination key for 3 seconds to enter pairing mode. Then insert the receiver, and the indicator light will flash quickly. Once pairing is successful, the LED indicator will stay on for 2 seconds. If no available device is found within 30 seconds, the LED indicator will turn off and the keyboard will enter sleep mode.

Battery Level Check

Press the Fn + Space combination keys to check the battery level. If the battery level is below 30%, the space key will show a red light. If it's between 30-50%, the space key will show an orange light. If it's between 50-70%, the space key will show a purple light. If it's between 70-90%, the space key will show a yellow light. If it's 90-100%, the space key will show a green light.

*Note: It's the spacebar's LED that shows the light, not the battery indicator. You can only check it with RGB on in wireless modelplugging off the USB cable).

Key/Lighting Effects Customization Instruction

- 1. The driver can be connected and lighting and key can be customized under the three working modes of the keyboard
- 2. The three working modes of the keyboard can be matched to drive the music rhythm
- 3. Please download the Mons Geek setup driver on our website

4. Users can download the driver via www.monsgeek.com

MONSGEEK Warranty and Service Statement

- 1. MONSGEEK provides One-Year warranty for customers in mainland China. For other regions, please contact your seller (MonsGeek distributor) for specific warranty policy.
- 2. If the warranty window expires, customers need to pay for repairs.
- 3. MONSGEEK will also provide instructions if users prefer to repair the keyboard by themselves. However, users shall take full responsibility for any loss happened during self-repair. Dissembling the keyboard without manufacturer/seller's instruction will immediately void the warranty.
- 4. The return and warranty policy may vary in different platforms and are subject to the specific distributor at the time of purchase.

Water and Beverages can't be poured into the Keyboard.
