**mooas MT-C1 Cube Time Management**

**Launch Date:** July 22, 2019

**Price:** \$14.99

## Introduction

The Mooas MT-C1 Cube Time Management Timer is a new tool that will make your life easier and help you get more done. It's never been easier to keep track of time with its simple flip-to-start feature. With five bright colors to choose from—White, Mint, Yellow, Violet, and Coral—this small timer is not only useful, but it also makes your workspace look better. It's made of strong ABS plastic and is small and light, so you can use it at home, at the office, or while you're out and about. The timer has different pre-set times for different tasks, like learning, cooking, working out, and taking breaks. Its loud alarms, clear LED display, and ability to change the brightness all help you stay on track. The Mooas MT-C1 is a solid tool for keeping track of time that runs on two AAA batteries. The timer is a great tool for anyone who wants to be more productive and better control their time.

## Specifications

- **Brand:** Mooas
- **Model:** MT-C1
- **Material:** ABS Plastic
- **Dimensions:** 2.5 x 2.5 x 2.5 inches
- **Weight:** 3.2 ounces
- **Power Source:** 2 AAA batteries (not included)
- **Color Options:** White, Blue, Pink, Green
- **Display:** LED digital display
- **Timer Settings:** 1, 3, 5, 10, 15, 30, 60 minutes

## Package Includes

- 1 x Mooas MT-C1 Cube Timer
- 1 x User Manual

## Time Configuration

## Color

Violet, Coral, Mint, White, Yellow

- **White:** 5/15/30/60 minutes
- **Mint:** 1/3/5/10 minutes
- **Violet :** 5/10/20/30 minutes
- **Yellow:** 10/20/30/60 seconds
- **Coral:** 10/30/50/60 minutes

## Features

- Easy and simple to use for everyone to use
- Simple cube-shape design
- Various time configurations for various occasions, such as studying, cooking, exercising, etc.
- **Easy to Use**

The Mooas MT-C1 Cube Timer is designed for simplicity and convenience. To start the timer, all you need to do is flip the cube so that the desired time interval is facing up. The timer will automatically begin counting down from the selected time. This intuitive operation makes it easy for anyone to use without the need for complex settings or buttons.

- **Portable Design**

The compact and lightweight design of the Mooas MT-C1 Cube Timer makes it perfect for use at home, in the office, or on the go. Its small size allows it to fit easily in a bag or pocket, so you can take it with you wherever you need it. Whether you are traveling, working, or studying in different locations, this timer is a convenient tool to have on hand.

- **Multiple Time Settings**

The Mooas MT-C1 Cube Timer offers a variety of pre-set time intervals to suit different tasks and activities. Depending on the color of the cube, you can choose from various time settings:

- **Yellow:** 10/20/30/60 seconds

- **Coral:** 10/30/50/60 minutes
- **Mint:** 1/3/5/10 minutes
- **White:** 5/15/30/60 minutes
- **Violet:** 5/10/20/30 minutes

These diverse time configurations make the timer suitable for a wide range of uses, such as studying, cooking, exercising, and taking breaks.

- **LED Display**

The timer features a clear and easy-to-read LED digital display that shows the remaining time. This display ensures that you can easily monitor the countdown and stay on track with your tasks.

- **Durable Construction**

Made from high-quality ABS plastic, the Mooas MT-C1 Cube Timer is built to last. Its durable construction ensures that it can withstand daily use and minor impacts without getting damaged.

- **Audible Alerts**

The timer emits a beep to signal the end of the countdown, ensuring that you are notified when the time is up. This audible alert helps you stay focused and manage your time effectively.

- **Battery Operated**

The Mooas MT-C1 Cube Timer is powered by 2 AAA batteries (not included). This makes it easy to replace the batteries when needed and ensures that the timer is always ready for use.

- **Pre-set Time Intervals**

The timer comes with pre-set time intervals of 10, 30, 50, and 60 minutes, making it versatile for different activities. Simply turn the timer so that the side with the desired time faces up, and it will start counting down right away.

- **Simple Design**

The cube features a simple and sleek design available in five colors, making it a stylish addition to any home or office. The minimalistic design also makes it a perfect home decoration.

- **Adjustable Alarm Volume**

The Mooas MT-C1 Cube Timer allows you to adjust the alarm volume to high or low by flicking a switch. You can also turn off the timer completely by flicking the switch to the off position.

- **Rattling Sound**

The timer contains a necessary part called the “weight” that ensures proper functioning. This part may make a rattling sound when the timer is moved, but it does not indicate any defect.

- **Continuous Red Light**

The timer features a red light that blinks continuously when the timer is in use, providing a visual indication that the countdown is active.

- **Diverse Uses**

The Mooas MT-C1 Cube Timer is highly versatile and can be used for various activities such as studying, cooking, exercising, playing games, and more. It is a practical and useful tool for managing time effectively.

## Usage

1. Insert two AAA batteries into the battery compartment located at the bottom of the product in the correct direction for each polarity.
2. The power switch is located at the bottom of the product.  
It can also be used to control the volume.
  - Placing the switch to OFF will turn off the product.
  - Placing the switch to LO will turn on the product at low alarm sound.
  - Placing the switch to Hi will turn on the product high alarm sound.
3. Once you have set the volume to LO or HI, place the desired time upwards and the timer will start with a beep.
4. When the timer starts, the red LED light starts to blink and the remaining time appears on the LCD screen at the bottom of the product.
5. When the time is up, an alarm will ring.
6. To turn off the alarm, place the side with an LCD screen or the side without any numbers upwards.
7. If you wish to change the time while the timer is running, place the desired time upwards and the timer will reset and start again.
  - \* The weight inside the cube timer will make a sound when it is shaken.

## Precautions

1. Do not use the product for other means other than its intended purpose.
2. Be careful of shock and fire.
3. Keep out of reach of infants.
4. If the product is damaged or does not operate properly, do not disassemble, repair or modify.
5. Please make sure right 2 AAA batteries are used.
6. Please replace all the batteries at the same time.
7. Do not mix alkaline, standard, and rechargeable batteries.
8. Dispose the used batteries separately from wastes.
9. Remove batteries from the product when it is not used for a long time

Care and Maintenance

- **Cleaning:** Wipe the cube with a dry or slightly damp cloth. Do not use abrasive cleaners or immerse in water.
- **Battery Replacement:** When the display becomes dim or the timer stops working, replace the batteries with new ones.
- **Storage:** Store in a cool, dry place when not in use. Avoid exposing the timer to extreme temperatures or moisture.
- **Handling:** Handle with care to avoid dropping or damaging the cube.

Troubleshooting

Problem	Possible Cause	Solution
Timer not working	Batteries are dead or not inserted correctly	Replace or correctly insert the batteries
Display is dim	Low battery power	Replace the batteries
Timer does not beep	Sound is turned off	Check the settings or replace batteries
Time is not accurate	Timer is not placed correctly	Ensure the timer is on a flat surface with the desired time facing up
LED display not showing	Battery compartment not closed properly	Check and close the battery compartment securely
Rattling sound when moved	Weight inside timer is moving	This is normal and not a defect
Red light not blinking	Timer is not in use	Ensure timer is set with time facing up
Timer turns off unexpectedly	Batteries are loose	Secure the batteries in the compartment

Pros and Cons

Pros

- Easy to use with a straightforward design.
- Versatile for various time management needs.
- Adjustable alarm volume for convenience.

Cons

- Some users report issues with timer accuracy.
- The blinking light may be distracting for some users.
- Quality concerns have been noted regarding durability.
