PRODUCT OVERVIEW

How to USE

Insert the two AAA batteries into the battery compartment at the back of the product in the correction for the positive polarity.

Mode setting (Clock/Timer)

- **Clock mode:** By sliding the button to face the 'CLOCK', time will be displayed

- **Timer mode:** By sliding the button to face the TIMER,  will be displayed

Time setting

- After setting to clock mode, press the SET button on the back to set the time. Set 12/24H time mode → Time → Minutes in order. The initial setting is 12:00.
- Use the ↑ button on the back to select 12/24H time mode or increase the number. The corresponding numbers will blink while setting. Press and hold the 1 button to continuously increase the number.
- Press the SET button to confirm the setting. If no operation occurs for about 20 seconds, it automatically confirms the setting and returns to the time display.
- After setting to timer mode, place the desired time face up and the timer will start with a beep. LED flashes and the remaining time will be displayed on the LCD screen.
- **How to use the timer**
 - If you turn the timer screen up while the timer is running, the timer pauses with a beep.
 - If you place the timer number up, the timer continues with a beep.
 - If you turn the timer so that the screen is facing downward while the timer is running, the timer will be reset with a beep.
 - If you want to change the setting to another time while the timer is running, turn the timer so that the desired time is facing up. The timer restarts with the changed time.
- When the set time is up, the backlight turns on and the alarm sounds. The backlight lasts for 10 seconds and the alarm lasts for 1 minute before shutting down.

Precaution

- Do not use other than purpose.
- Be careful of shock and fire.
- Keep out of the reach of the children.
- If the product is damaged or does not function properly, do not disassemble or repair the product.
- Make sure to use batteries with correct specifications and replace all batteries at the same time
- Do not mix alkaline, standard, and rechargeable batteries.
- When not in use for a long time, remove the batteries and store them.
