MORECORE ML-F001 Camping Fan with Led Lantern

Launch Date: June 1, 2022

Price: \$159.34.

Introduction

The **MORECORE ML-F001 Camping Fan with LED Lantern** is the perfect companion for your outdoor adventures, offering both cooling comfort and bright illumination. Whether you're camping, hiking, fishing, or experiencing a power outage, this versatile 2-in-1 device provides a powerful fan to keep you cool and an LED lantern to light up your surroundings. With a compact, portable design and multiple speed settings, the **MORECORE ML-F001** ensures you stay comfortable and well-lit in any environment. Its rechargeable battery and dual-function design make it an essential gadget for outdoor enthusiasts.

Specifications

- **Model Number:** ML-F001
- **Fan Type:** 2-Speed USB Rechargeable Fan
- **Light Type:** LED Lantern
- **Light Modes:** 3 brightness levels (Low, Medium, High)
- **Battery Capacity:** 4000mAh
- **Charging Time:** 4-5 hours
- **Run Time:**

- **Fan:** 6-10 hours (depending on speed setting)
- **Lantern:** 5-15 hours (depending on brightness setting)
- **Power Supply:** Rechargeable battery or USB charging
- **Fan Speed:** 2 speeds (High, Low)
- **Dimensions:** 7.5" x 7.5" x 6"
- **Weight:** 1.2 lbs
- **Material:** Durable ABS plastic
- **Water Resistance:** IPX4 (Splash-resistant)
- **Light Color:** Warm white LED

Package Includes

1. MORECORE ML-F001 Camping Fan with LED Lantern
2. USB Charging Cable
3. User Manual
4. Warranty Card

Features

1. 2-in-1 Design:

The LETMY X2500 combines two essential camping gadgets—an **LED lantern** and a **fan**—into one portable, compact unit. This multifunctional design saves space and provides both **cooling** and **lighting** in one device.

2. Rechargeable 10,000mAh Battery:

Equipped with a **10,000mAh polymer rechargeable battery**, the **LETMY X2500** can run up to **20 hours** on a single charge, providing uninterrupted light and cooling power for long outdoor trips. This eliminates the need for disposable batteries, making it both eco-friendly and cost-effective.

3. 3-Level LED Lantern:

The **LED lantern** in the LETMY X2500 features **36 LED beads** with three **brightness levels** (Low, Medium, and High), delivering up to **740 LUX** of light. It's powerful enough to light up your entire tent or campsite and is ideal for reading or other nighttime activities.

4. 2-Speed Fan:

The built-in **fan** offers **two-speed settings**, allowing you to adjust the airflow to suit your environment. Whether you're sitting in a **hot camping tent** or **fishing shelter**, this fan helps keep you cool and comfortable.

5. Super Bright LED:

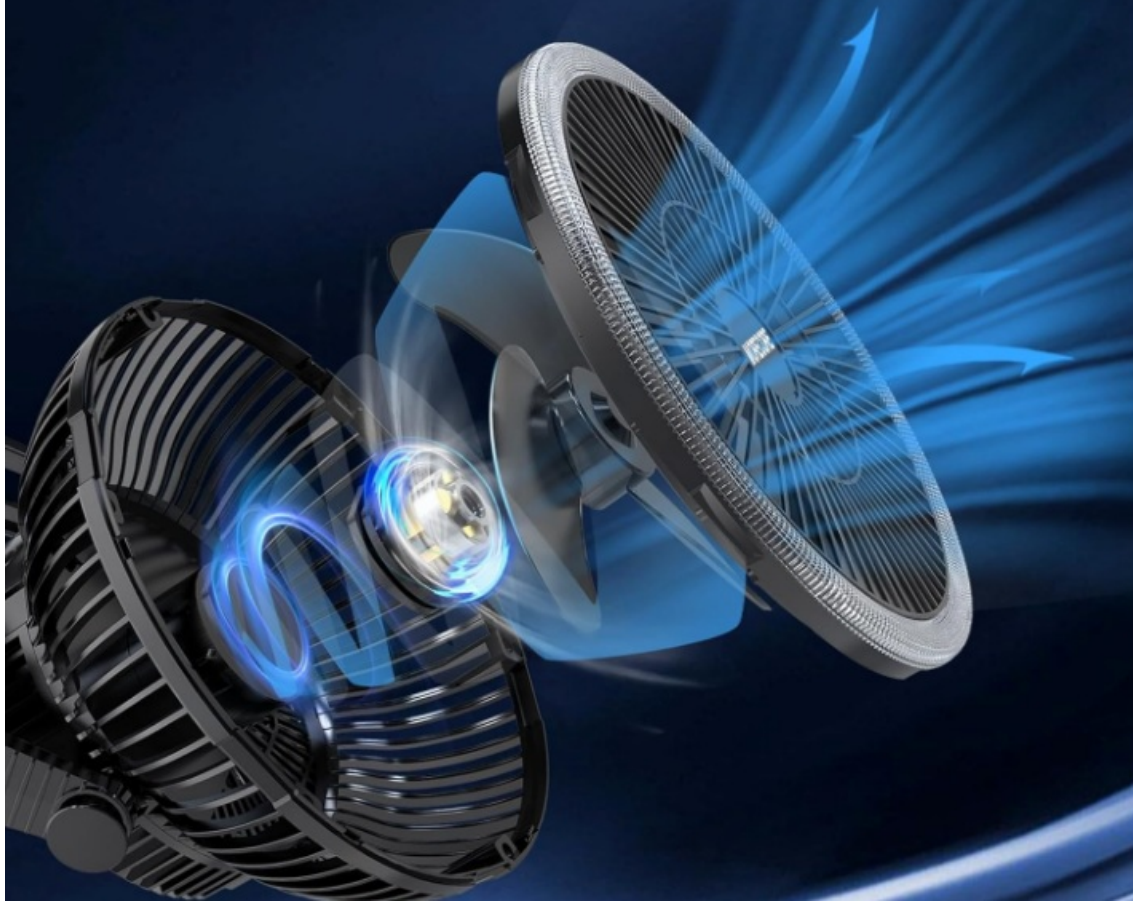

The integrated LED light provides ample illumination, making it perfect for **camping**, **emergencies**, or even as a **work light** in your garage. It can light up your entire tent, campsite, or small room with its **high LUX rating**.

6. Portable & Compact:

The **LETMY X2500** is designed to be **lightweight** and easy to carry. The **foldable hook** and **adjustable handle** offer **versatile portability**, allowing you to hang it in tents, from branches, or use it as a stand on a desk or countertop.

**Hi-tech fan blades provide
powerful airflow yet remain quiet**

7. USB Rechargeable:

This fan and lantern combo is powered by a **rechargeable battery** and features a **USB-C port** for quick and convenient charging. You can also power it using a **power bank**, making it ideal for **long trips** or **emergency preparedness**.

3-Speed Powerful Fan

8. Water-Resistant:

The LETMY X2500 has a **water resistance rating of IPX4**, making it suitable for use in **light rain** and outdoor environments. It's durable enough for camping trips, hiking, fishing, and emergencies.

9. Quiet Operation:

The fan operates with a **quiet motor**, ensuring minimal noise disruption during sleep, reading, or relaxation. The **quiet fan** won't disturb your camp or tent environment, allowing for a peaceful night.

10. User-Friendly:

The LETMY X2500 is designed with ease of use in mind. The **fan** and **light** are controlled by separate buttons, so they can be used independently or together. The adjustable handle makes it easy to carry, and when folded, it's space-saving and easy to store.

11. Hang/Stand Design:

The versatile design features a **foldable hook** that allows the device to be **hung** in tents, cars, or on branches. When not hanging, the **handle can function as a stand**, making it suitable for both **indoor** and **outdoor** use.

12. Energy Saving:

The rechargeable battery and **energy-efficient LEDs** ensure long-lasting use without drawing too much power, providing you with an efficient way to stay cool and illuminated while conserving energy.

13. Large Coverage Area:

The **10.32 cm fan** delivers a larger airflow compared to smaller models, covering a larger area. Ideal for tents holding **2-6 people**, it helps cool the space quickly and effectively.

14. Multi-Use Versatility:

This fan and lantern combo is perfect for a variety of uses such as **camping, hiking, fishing, backyard**

events, power outages, or even **indoor activities** like reading or working in low-light conditions.

15. **Ideal for Emergency Situations :**

The LETMY X2500 is also a great addition to your **emergency survival kit**. The **fan** and **lantern** make it an invaluable tool for **hurricanes, storms**, or **power failures**.

Usage

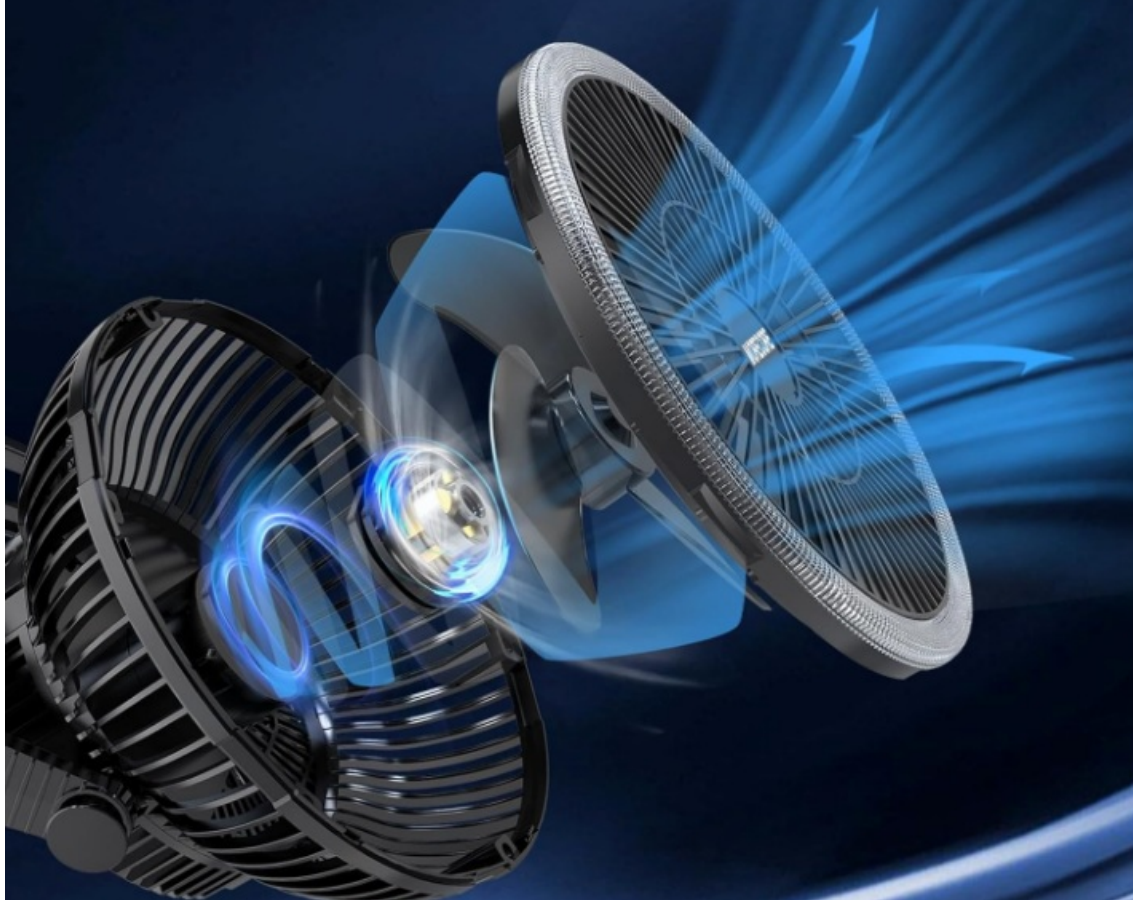

- **Camping:** Hang the fan and lantern in your tent or canopy to keep cool and light up your camping area.
- **Power Outages:** Use the **MORECORE ML-F001** as a reliable source of light and cooling when the power goes out.
- **Outdoor Activities:** Perfect for outdoor activities such as hiking, fishing, picnicking, or sitting on the porch, keeping you comfortable with its cooling fan and ambient light.
- **Emergency Lighting:** Its battery-operated design makes it ideal for emergency situations when you need both a fan and light.
- **Reading or Relaxing:** Use the lantern at a low brightness for reading or relaxing in low-light conditions.

Care and Maintenance

Cleaning:

- Turn off the fan and disconnect the power before cleaning.
- Use a dry or slightly damp cloth to clean the surface of the fan and lantern. Avoid using harsh chemicals or abrasive cleaners.
- Clean the fan blades gently with a soft brush or cloth to remove any dust buildup. Do not use water to clean the fan motor.

Hi-tech fan blades provide powerful airflow yet remain quiet

Storage:

- Store the fan in a dry and cool place when not in use. Avoid leaving it in damp or extremely hot areas for extended periods.
- Ensure the fan is turned off and fully charged before storing it to preserve battery life.

Charging:

- Always use the provided USB cable or a certified USB charger to recharge the fan.
- Avoid overcharging the fan. Disconnect the charging cable once the fan is fully charged to prolong battery lifespan.

Battery Care:

- The battery should be charged every 3-6 months if not in use to avoid damage from disuse.
- If the battery life decreases significantly over time, consider replacing the battery or contacting customer service.

Troubleshooting

Issue	Possible Solution
Fan or light not turning on	Ensure the fan is fully charged. If not, connect it to the charger and wait for a full charge.
Fan operates but light does not work	Check if the LED bulb is damaged or if the light mode is set to off. Try cycling through the brightness levels.
Fan is not blowing air	Check if the fan blades are obstructed or dirty. Clean the fan blades gently to remove any dust or debris.
Charging issue	Ensure the USB cable is connected securely to both the fan and the charging source. Try using a different charging cable or adapter.
Battery runs out too quickly	The battery may need to be replaced. If the fan is used frequently, it may be time for a new battery.
Noise or rattling sound	Check for any loose parts or obstructions in the fan. Tighten any loose screws and remove debris.
Fan is overheating	Allow the fan to cool down by turning it off for a few minutes. Ensure the fan is not used in excessively hot environments.
Water damage or malfunction	Although the fan is splash-resistant (IPX4), ensure that it is not exposed to excessive moisture. Dry the fan thoroughly and avoid future exposure to water.

FAQs

What is the MORECORE ML-F001 Camping Fan with LED Lantern?

The MORECORE ML-F001 is a versatile 2-in-1 device that combines a fan and an LED lantern. It provides both cooling and lighting, making it perfect for camping, hiking, and other outdoor activities.

How many brightness settings does the MORECORE ML-F001 have for the LED lantern?

The MORECORE ML-F001 features a 3-level LED lantern with Low, Medium, and High brightness settings, allowing you to adjust the light according to your needs.

What is the battery capacity of the MORECORE ML-F001 Camping Fan with LED Lantern?

The MORECORE ML-F001 is powered by a 4000mAh rechargeable battery, which provides several hours of use on a single charge, depending on the fan and light settings.

How long can the MORECORE ML-F001 run on a full charge?

Depending on the settings, the MORECORE ML-F001 can run for several hours. On fan mode, it can last up to 10 hours, while the lantern can provide light for up to 12 hours on a full charge.

What fan speeds does the MORECORE ML-F001 have?

The MORECORE ML-F001 features two fan speeds: low and high. You can adjust the fan to suit your environment and cooling needs.

How portable is the MORECORE ML-F001 Camping Fan with LED Lantern?

The MORECORE ML-F001 is compact and lightweight, making it easy to carry in a backpack or camping gear. Its portable design makes it ideal for travel and outdoor adventures.

How is the MORECORE ML-F001 controlled?

The MORECORE ML-F001 is controlled with separate buttons for the fan and LED lantern, making it easy to adjust the fan speed and light brightness.

What is the advantage of the MORECORE ML-F001's 2-in-1 design?

The MORECORE ML-F001's 2-in-1 design is perfect for saving space and providing the convenience of both a fan and lantern in one compact device, making it ideal for camping and emergency situations.

Can the MORECORE ML-F001 Camping Fan with LED Lantern be used in emergencies?

Absolutely! The MORECORE ML-F001 is a great option for emergencies. It offers both light and cooling, making it ideal for power outages, stormy weather, or other situations where both light and ventilation are needed.
