**MOULTRIE MOBILE MMF-15056FLD Feed Hub Cellular Feeder Control**

## Product Information

### Specifications

- **Compliance:** FCC RF radiation exposure limits
- **Minimum Distance:** 20cm between radiator and body
- **FCC Rules:** Part 15 compliance
- **IC Compliance:** License-exempt RSS(s) by Innovation, Science and Economic Development Canada

### Product Usage Instructions

#### RF Exposure Safety

For your safety, it is important to follow the RF exposure guidelines set forth by the FCC. The equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body. This ensures that you are not exposed to excessive RF radiation.

#### FCC Rules and Interference

The device complies with Part 15 of the FCC Rules. To avoid interference, please adhere to the following:

1. The device should not cause harmful interference to other devices.
2. The device must accept any interference received, even if it causes undesired operation.

Please note that any changes or modifications to the unit that are not expressly approved by the responsible party for compliance may void the user's authority to operate the equipment.

## IC Compliance and Interference

This device contains license-exempt transmitter(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). To ensure proper operation, please adhere to the following:

1. The device should not cause interference to other devices.
2. The device must accept any interference, even if it may cause undesired operation of the device.

## Frequently Asked Questions

**Q:** What are the FCC RF radiation exposure limits?

**A:** The FCC sets limits on the amount of radiofrequency (RF) radiation that electronic devices can emit. These limits are in place to protect users from excessive exposure to RF radiation.

**Q:** How far should I keep the equipment from my body?

- **A:** It is recommended to maintain a minimum distance of 20cm between the radiator of the equipment and any part of your body. This distance helps reduce RF radiation exposure.

**Q:** What happens if I modify the unit without approval?

- **A:** Modifying the unit without express approval from the responsible party for compliance may void your authority to operate the equipment. It is important to follow the manufacturer's guidelines and obtain proper approval for any modifications.

**Q:** What is IC Compliance?

- **A:** IC Compliance refers to compliance with license-exempt RSS(s) by Innovation, Science and Economic Development Canada. This ensures that the device meets the necessary requirements for operation in Canada.

## Warranty

- This product has been thoroughly tested and inspected before shipment. It is guaranteed from defects in material and workmanship from the date of purchase for 2 years.
- Under this limited guarantee, we agree to replace or repair free of charge any part or parts which have been found to be defective in original material or workmanship.

- Physical damage, abuse, misuse, unapproved alterations, or tampering with the equipment is not covered and will void your warranty.
- For full warranty terms, visit: [MoultrieMobile.com/2022\\_MM\\_Warranty\\_Info](https://MoultrieMobile.com/2022_MM_Warranty_Info)
- Should you require service, call our Customer Success Team: 1-844-908-1219

## FCC STATEMENT

### RF Exposure Statements

- This equipment complies with the FCC RF radiation exposure limits set forth for an uncontrolled environment.
- This equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.
- This equipment meets the exemption from the routine evaluation limits in section 2.5 of RSS-102. It should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.

### FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference
2. This device must accept any interference received, including interference that may cause undesired operation.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**NOTE 2:** Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

### IC Warning

This device contains license-exempt transmitter(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.
