Mousetrapper TB403 Type Keyboard Bluetooth

Product Information

Specifications:

- Product Name: Mousetrapper Type
- Model Number: TB403
- Country of Origin: China
- Designed in: Sweden

Product Usage Instructions

Using a Cable:

1. Connect the cable between your Mousetrapper Type and your computer.
2. Your device is now ready to use.

Wireless Usage:

1. Move the switch under your Mousetrapper Type to the ON position.
2. Press the CONNECT button under your Mousetrapper Type.
3. The LED will start flashing blue.
4. Open your computer's Bluetooth menu and connect to the unit named MT TYPE.
5. To charge the unit, if needed, connect the cable to your computer or power source when the LED is flashing RED.

For additional information and steps, you can scan the QR code provided or visit mousetrapper.com/get-started-with-type.

FAQ

Q: Is the Mousetrapper Type compatible with all operating systems?

A: The Mousetrapper Type is compatible with most operating systems including Windows, macOS, and Linux. Ensure your device has Bluetooth capability for wireless use.

Q: How can I customize the button functions on the Mousetrapper Type?

A: You can customize the button functions by downloading the appropriate software from mousetrapper.com and following the instructions provided.

Get started

With a cable

Connect the cable between your Type and computer. Ready!

Wireless use

1. Move the switch under your TYPE to ON.
2. Press the CONNECT button under your TYPE. The LED will now start flashing blue. Open your computers Bluetooth menu and connect to the unit named MT TYPE.
3. To charge the unit, if needed, connect the cable to your computer or power source when the LED is flashing RED.

Change button functions

The button functions can easily be reprogrammed with MT Keys – which you can launch in your browser using the designated button (F1). Read more at mousetrapper.com/software

You can also scan the QR-code to follow the steps and learn even more about Type. Or visit mousetrapper.com/get-started-with-type

FCC Warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0 cm between the radiator and your body.
