This table is prepared according to SJ/T 11364

Attention

- If you need to install, disassemble or move this product, please cut off the power first.
- If you find any malfunction such as smoke, odor or noise, please stop using it immediately.
- Do not use in a highly warm and moisturizing environment (carpet, sponge, corrugated cardboard, foam, etc.) to avoid fire.
- Do not cut off the power or restart the product during the connection process to avoid malfunction or data loss.
- Do not use tools such as pliers to remove cables or replace the product to avoid damage.
- To ensure the normal installation of OS, please restore the system to its original state first when changing the settings of the computer BIOS.
- Please follow the relevant local environmental regulations to dispose of the waste products.
- To avoid information leakage, it is recommended to use data elimination software and services to completely delete data.
