FAQ

Q1: The product can't pair with the Bluetooth of your smart device.

1. Please make sure the product have entered pairing mode.
2. Make sure there is only one Bluetooth-enabled device around you.
3. Wipe out the pairing history of your Bluetooth-enabled devices and receiver, then try again.

Q2: The Bluetooth range or the sound quality is not good.

1. Bluetooth signal can be blocked by surrounding objects and reduce the audio quality, please put it in the right position without a barrier between the receiver and your smart devices.
2. Wipe out the pairing history of the product, then try again.

FCC STATEMENT

This device complies with part 15 of the FCC rules.
Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Note 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

CORRECT DISPOSAL OF THIS PRODUCT

■ (Waste Electrical & Electronic Equipment)

This Marking shown on the product or its literature indicates that it should not be disposed of with other household wastes at the end of its working life.

To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of waste and recycle it responsibly to promote the sustainable reuse of material resources. Household user should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally safe recycling.

Business users should contact their suppliers and check the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes for disposal.
