Pause/Play/Next Song/Volume Up/previous Song/Volume Down

Answer/Hang up/Redial/Reject

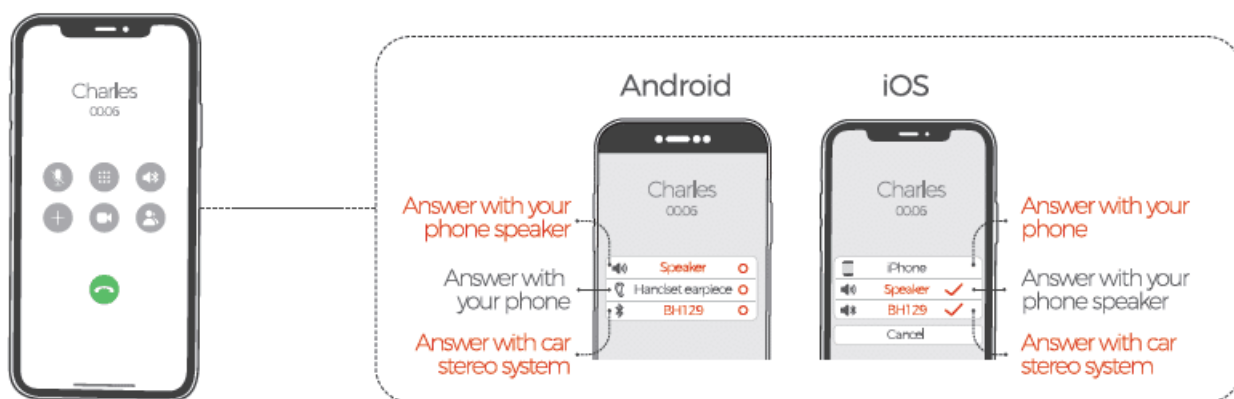

Voice Assistant

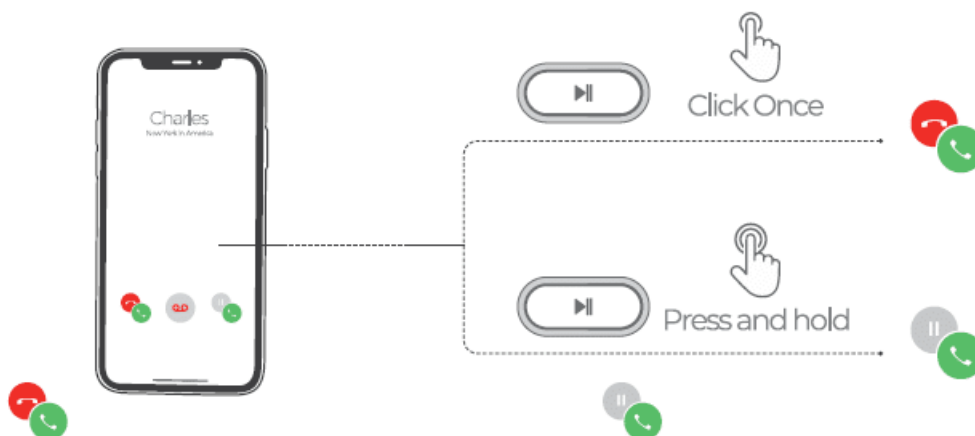

Switch Audio Source

During a call: select a mobile phone or BH129 to answer a call.

New call During A call

Hang up one and answer another. Hold on one and answer another

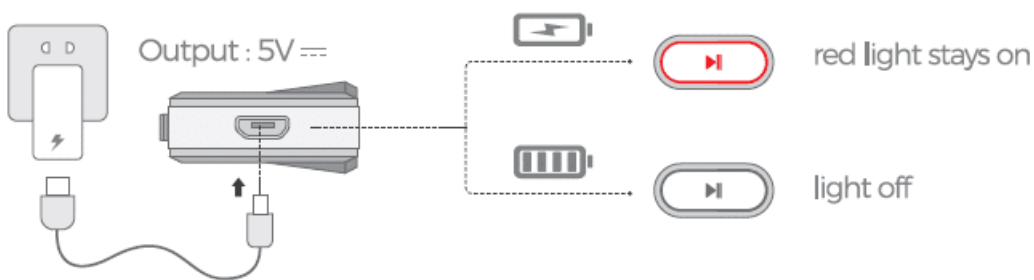

Low Battery Alarm

1. When the battery runs low. it will automatically alarm the light flashes red 15 times quickly and then slowly.
2. When the battery power is less than 3V. it will automatically shut down.

Charge

When battery runs low or unable to turn on. charge it

Dormancy

1. If there is no operation or connection after the receiver being turned on. it will automatically enter sleep mode after 10 minutes. Click "Play" button for 1 second or re-toggle the switch to wake it up. the power consumption of the dormancy state is about 10μA the same as that in the state of shutdown
2. When the connection bet. receiver and mobile phone is out of distance, it will automatically enter sleep mode after 20 minutes. Click "Play" button for 1 second or re-toggle the switch to wake it up.

Note:

1. The normal charging voltage range of the product is between 4.5 V/ and 6.5V. Do not use any charging devices out of the range to avoid damage.
2. Please charge the receiver timely when battery runs low or not be used for a long time to avoid that the product does not work properly or the battery is damaged.
3. Because the Bluetooth wireless signal is easily interfered by the surrounding environment blocked or absorbed by the objects. please place the Bluetooth receiver and the device in a barrier-free position for better Bluetooth wireless music transmission.
