msi K32 Wireless Combo Keyboard and Mouse

Overview

Keyboard

1. USB Type-C Charging Port
2. Power On/Off
3. Type-C Charging Cable

Mouse

Model Name : 8ZB4

1. Side Button 1
2. Side Button 2
3. Scroll Wheel
4. DPI Switch

Preset Switchable DPI: 800 / 1200 / 1600 Max DPI: 1600

BSMI Statement

1. Replacement of a battery with an incorrect type that can defeat a safeguard (for example, in the case of some lithium battery types);
2. Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion;
3. Leaving a battery in an extremely high temperature surrounding environment can result in an explosion or the leakage of flammable liquid or gas;
4. A battery subjected to extremely low air pressure may result in an explosion or the leakage of flammable liquid or gas.

Hereby, MSI declares that the radio equipment type 8ZA4 / 8ZB4 / D32 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.msi.com. MSI-EUROPE Eindhoven 5706 5692 ER Son.

FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the device. Where shielded interface cables have been provided with the product or specified additional components or accessories elsewhere defined to be used with the installation of the product, they must be used in order to ensure compliance with FCC regulations.

FCC Radiation Exposure Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF Rules. This equipment must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and consider removing the no-collocation statement.

ISED Compliance Statement

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

RF Exposure Statement

The device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS-102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

Specifications

- Keyboard: Input DC 5V/0.5A
- Mouse: Input DC 5V/0.5A
- Transceiver: Input DC 5V/30mA
- Frequency range :2.40385-2.47985GHz
- Keyboard output power <-3 dbm
- Mouse output power <-25 dbm
- Transceiver output power <-0.5 dbm
