Pro Tips

- Anytime you change your label, run the automatic label identification.
- Press the feeder button on the printer to skip a blank label.
- To run a self-test, press and hold the feeder button until you hear two short beeps.
- To ensure your printing quality, please use MUNBYN labels. If you use other brands' label paper, please run "automatic label identification" before printing.

- Regularly clean the printer head.
- If the paper is jammed and the red light flashes, run Automatic label identification. Insert Munbyn into the same USB port on your computer every time.
- This will avoid creating duplicate copies of the printer in your operating system.
