## INCLUDED PARTS

## IMPORTANT INFORMATION

**CAUTION:** Wash and inspect before use. Do not microwave or use with hot liquids. Do not boil or steam sterilize. Discard and replace at first sign of damage. Always check temperature before drinking. Do not let child walk or run while carrying the cup. Straw is not intended to be used as a teether. Do not allow child to bite or chew on straw. Do not leave child unattended during use. Discard all packaging components before giving to the child.

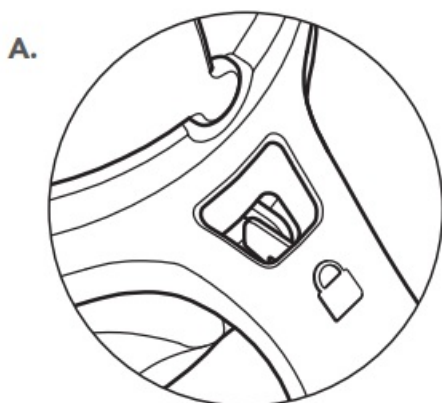

## HOW TO CLEAN

Wash all parts prior to first use in warm soapy water or on top rack of dishwasher.

To remove the straw for cleaning, from the inside of the lid, pull straw where it attaches to the lid. Use the brush included with the cup to clean the inside of the straw. The weight can be detached from the straw for additional cleaning.

Keep components away from child during cleaning. When reassembling, reattach the straw to the lid.

**A. Note:** To ensure a leak-proof seal, turn lid to tighten until the click is heard.

## HOW TO USE

Valve Activation: The straw contains a one way valve to prevent spills. This straw must be activated before first use. Locate the valve inside the upper portion of the straw and squeeze to activate it.
