# MURPISO

**MURPISO F21 Foldable Charging Station**

## INTRODUCTION

With the MURPISO F21 Foldable Charging Station, you can charge three Apple devices at once using magnetic wireless technology. This little charger is perfect for charging your iPhone, Apple Watch, or AirPods. Its compact size and easy folding make it ideal for people who are constantly on the move. Released on June 6, 2023, and made by MURPISO, the charger is available for a reasonable price of **\$29.99**. Every Apple fan needs this charging station because it is compatible with so many different types of Apple products. These include the most recent iPhones (16/15/14/13/12), AirPods (Wireless/Pro), and Apple Watch Series 10/9/8/7/6/5/4/3/2. You can charge your devices with peace of mind thanks to its numerous safety features and sleek design, which includes a breathing indicator light. Because of its compact and collapsible form, the station is perfect for taking on the go.

<b>Item Model Number</b>	F21
<b>Date First Available</b>	June 6, 2023
<b>Country of Origin</b>	China

## WHAT'S IN THE BOX

- 1 x Wireless Charger
- 1 x USB Cable
- 1 x Storage Box
- 1 x Adapter
- 1 x User Manual

## FEATURES

- A multi-function charging station that can charge your iPhone, Apple Watch, and AirPods all at once is a great time saver if you own many Apple products.
- The charger's magnetic foldable construction makes it suitable for travel and storage due to its tiny size.

# Foldable Magnetic Suction Design

Strong Hold

Magnetic suction is only available for iPhone12/13/14 series

- Eliminates the need for tangled cords with support for wireless charging for iPhone 16/15/14/13/12/Pro/Max/Mini models.
- Streamline your device management with AirPods Wireless Charging, which efficiently charges your AirPods and AirPods Pro wirelessly.
- Effortless wireless charging is now possible with all Apple Watch models, including SE, from Series 2 and up to Ultra.
- **Aesthetic Breathing Indicator Light:** The charger has an aesthetically pleasing breathing indicator light that shows how your gadgets are charging.
- The folding shape of the charging station makes it compact and lightweight (just 0.317 ounces), making it perfect for usage while traveling.

# Lightweight & Compact

Equipped with storage box, more neat and convenient.

- **Quick Charging Technology:** All devices that are compatible with the station can use the fast charging feature, which shortens the time it takes to charge fully.
- **A variety of safeguards for security:** Safe charging for your devices is guaranteed by built-in protective mechanisms that prevent overcharging, overheating, and short circuits.
- Offering universal charging ease, it is compatible with iPhone, iWatch (Series 2-Ultra), and AirPods (1st, 2nd, Pro) models.

# Universal Compatibility

**7.5W**

iPhone14/Pro/Pro Max/Plus  
iPhone13/Pro/Pro Max/Mini  
iPhone12/Pro/Pro Max/Mini

**2.5W**

Apple Watch Ultra/  
SE/8/7/6/5/4/3/2

**NOTE:Not compatible with Samsung watch**

**5.0W**

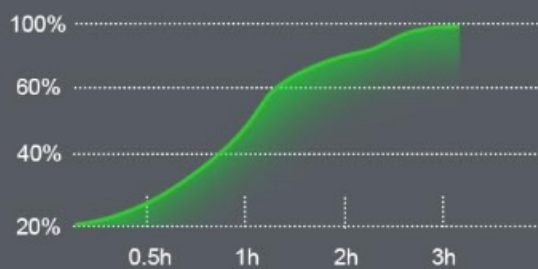

AirPods 2/3/  
Pro/Pro 2

**Only support AirPods 2/3  
wireless versions**

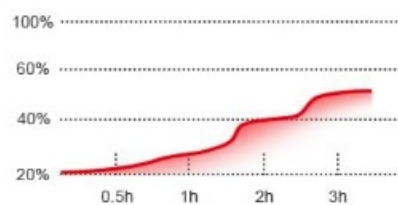

- The elegant foldable design is simple and modern, making it a great addition to any home or workplace.
- **Space-Saving:** The charger's small form factor keeps your work area or nightstand free of unnecessary items.
- **Quick Charging:** The charger charges devices quickly without wasting electricity since it uses power efficiently.
- Users can quickly and easily charge their gadgets by placing them on the specified charging areas; no wires are required.
- The charging station is constructed to last and endure daily use due to its use of high-quality materials.

## SETUP GUIDE

- Take it out of the box and check that everything you need is there (charging station alone; cables not included).
- **Find a Level Surface to Charge On:** Put the charging station on a flat, steady surface like your desk or nightstand.
- Unfold the charging station to its maximum size and set it on the surface of your choice to begin setting it up.
- **Establish a Power Connection:** Using an appropriate power adapter, connect the charging station to a wall outlet or a USB charger.
- **Set Your iPhone Down:** Just place your iPhone (works with 12/13/14/15/16/Pro/Max/Mini) on the special charging pad.
- To Charge Your Apple Watch, Just Position It on the Charging Pad So That It's Magnetically Attached.
- **Prop Your AirPods or AirPods Pro Up:** Lay your earbuds on the charging plate with the wireless charging surface facing down.
- **Check the Charging Status:** When your devices are charging, you can tell because the breathing indicator light will turn on.
- **Make Any Necessary Adjustments:** If you want your gadgets to charge at their best, you might want to move them around a bit.
- **Go Over Every Device:** Verify the proper charging and powering of the iPhone, Apple Watch, and AirPods.

- To take advantage of the quick charge option, activate fast charging (if available) on your devices. Just make sure they are compatible with fast charging.
- **Carry the Charging Station with You:** When you're on the road, all you have to do is fold up the charging station and throw it in your bag.
- Always connect the charger to a steady power source with the correct voltage to ensure constant performance.
- Keep an eye on the charging status to make sure the gadgets are charging properly and according to plan.
- Be sure the charger and devices aren't becoming too hot as you use them, and that all of the safety features are working properly.

## CARE & MAINTENANCE

- **Stay Dry:** To prevent electrical problems or harm to the charging station, make sure that both your devices and the charger stay dry.
- **Maintain Regular Cleaning:** Use a gentle, lint-free cloth to wipe off the charging station and remove any dust, grime, or other debris. Stay away from harsh cleaning products.
- To preserve the charging station's surface from scratches and other damage, keep sharp items away from it.
- **Avoid Accidental Damage by Storing the Charging Station Properly:** Put the charging station in a dry, secure location while it's not in use.
- Make sure you only charge devices that are compatible with the charging station to prevent overcharging.
- The internal components of the charging station are susceptible to harm from extreme heat and sunlight, thus it is important to keep it out of these conditions.

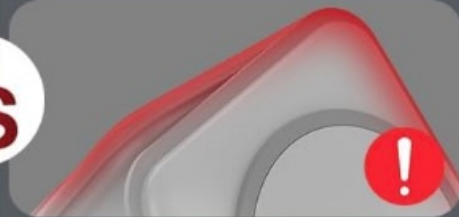

# Details to the Extreme

**Stronger Design**

**VS**

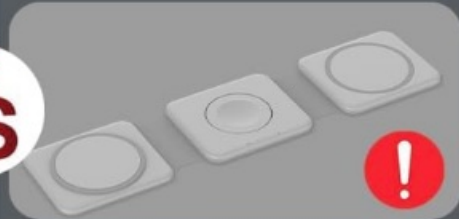

**Easy to Loosen**

**Unique Breathing Light**

**VS**

**Ordinary LED Light**

**A Simple Way to Travel**

**VS**

**Not Easy to Carry**

- To Make Sure You Get the Right Voltage and Not Overload the Charger, Use the Suggested Power Adapter at All Times.
- **Do Not Leave the Charging Station Plugged in:** To save energy and prevent damage to the charger, unplug it when it is not in use for long periods of time.
- **Inspect Charging Pads for Debris :** On a regular basis, check the charging pads for debris that could reduce charging efficiency.
- To get the most out of your charging station, be sure to use only high-quality, compatible cables and never use faulty ones.
- To keep the charging station from toppling over, make sure it is placed on a level, sturdy surface at all times.
- Be sure to keep an eye on the breathing light. If it suddenly stops working or acts strangely, it's a good idea to check the charger.
- **Inspect for Signs of Wear and Tear:** From time to time, look over the charging station for any indications of wear, particularly on the charging pads and folding hinges.
- **Be Wary of Liquids:** The charging station could malfunction or have a short circuit if any liquids were to come into touch with it.

light flash

## Charging

Blue pulse

## Fully

Blue on

- Be careful not to stress or harm the folding mechanism in any way, as this could compromise its ability to fold.

## TROUBLESHOOTING

Issue	Possible Solution
Devices are not charging	Ensure the charger is plugged in properly and securely.
The charging station isn't folding	Check if the hinges are obstructed or damaged.
Charging is slow	Verify that the charger is placed correctly and check the power source.
The breathing light is not working	Check the power connection and make sure the device is compatible.
Device not recognized for charging	Ensure your device supports wireless charging.
Overheating during charging	Place the charger in a well-ventilated area and avoid blocking airflow.
The charger is not staying upright	Ensure the charger is set up properly on a flat surface.
The magnetic connection is weak	Align the devices properly with the magnetic charging pad.
The charger is not compatible with all devices	Verify your device is compatible with wireless charging.
The charger is not powering up	Try using a different power outlet or cable.

### PROS & CONS

#### PROS:

1. 3-in-1 charging for iPhone, AirPods, and Apple Watch.
2. Compact and foldable design ideal for travel.
3. Breathing indicator light adds a modern aesthetic.
4. Affordable price at \$29.99 for the versatility.
5. Multiple security protections for safe charging.

#### CONS:

1. Not compatible with non-Apple devices.
2. Charging speed may vary based on the device.
3. May require specific adapters for certain models.
4. Foldable design may not feel as sturdy as traditional stands.
5. Light indicator can be bright in dark environments.

### WARRANTY

The MURPISO F21 Foldable Charging Station is backed by a **1-year limited** warranty, effective from the date of purchase. This warranty covers defects in materials and craftsmanship. To make warranty claims, customers are encouraged to register their product with the manufacturer. The warranty does not cover damage caused by misuse or accidents.
