## Case Features

1. Tempered glass
2. Front panel
3. Tempered glass
4. Fan position
5. Metal side panel
6. HDD\*2 installation position
7. PSU position
8. SSD slots
9. Fan

- 10. PSU dust filter
- 11. Magnetic dust mesh
- 12. I/O port

## Case Specifications

Maximum CPU cooler height: 176mm  
Maximum GPU length: 390mm  
Maximum PSU length: 230mm

## Fan Compatibility

Front: 3x120mm  
Top: 3x120mm  
Rear: 120mm/140mm

## Radiator Compatibility

Top: 240/280/360mm  
Rear: 120mm/140mm

## Catalogs

### Computer Case

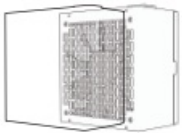

The latest design. Each product of MUSETEX has a novel square design element, which makes the computer style you build more unified.

## CPU Liquid Cooler

Cool down the CPU and motherboard. The water cooling head can blow air to the motherboard to dissipate heat.

## Power Supply

Cost-effective power supply.

## Fans

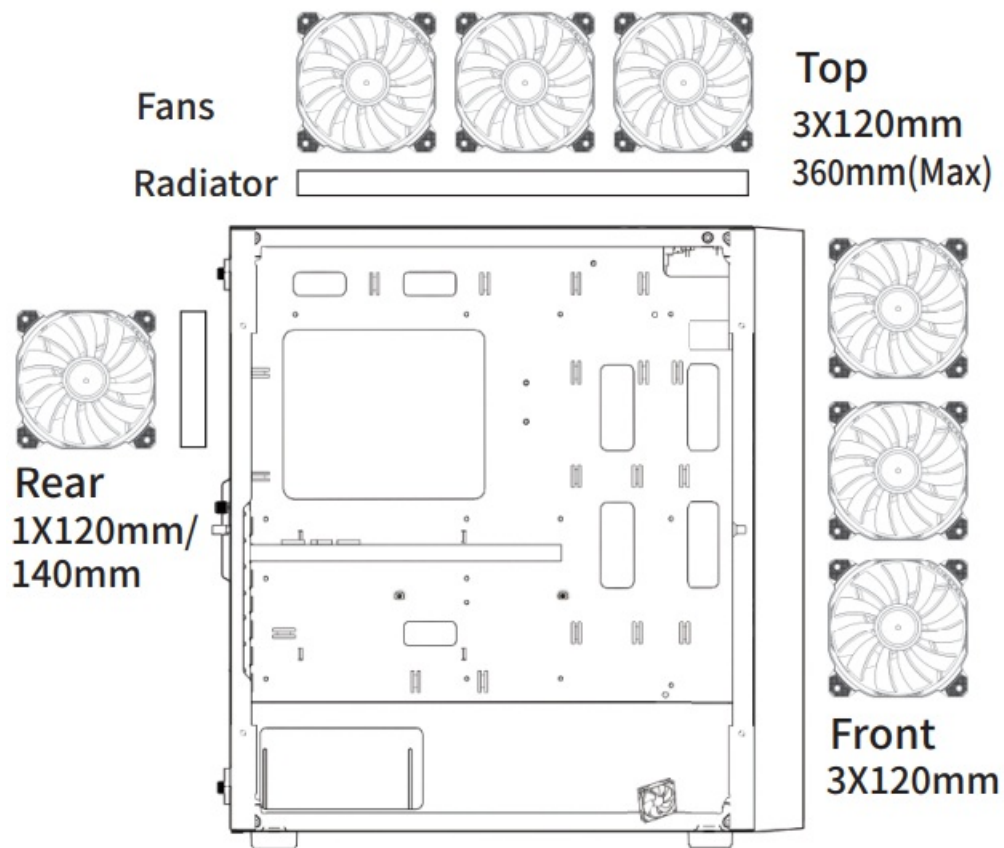

Choose a unified fan for the case to make your case more tidy.

## Water Cooling Radiators & Fans installation

**Tips:** For better heat dissipation, if you use a radiator, please match original fans.

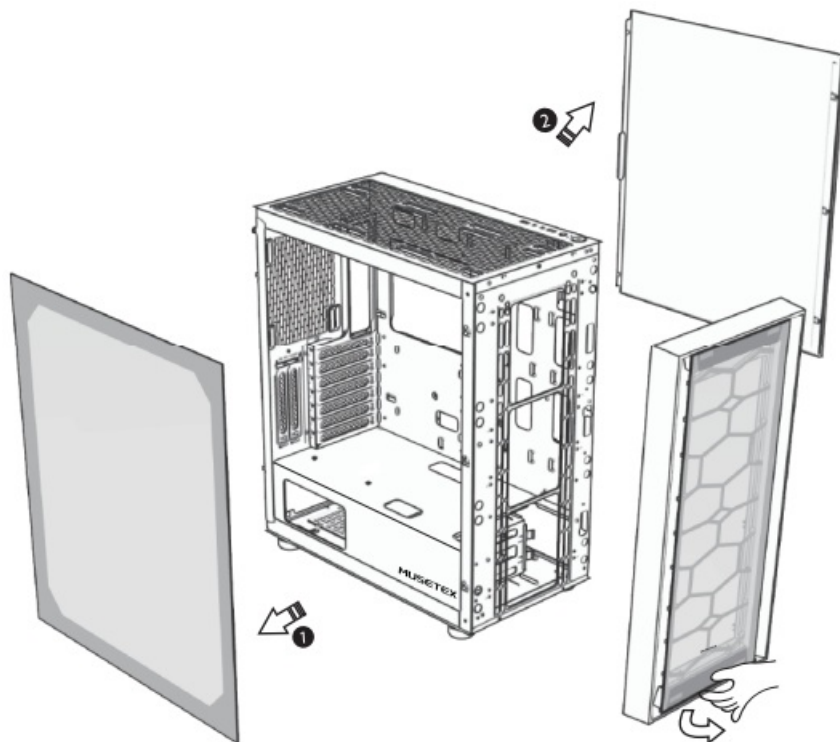

### Radiator Compatibility

Top: 240mm/280mm/360mm

Rear: 120mm/140mm

### Disassembly Steps

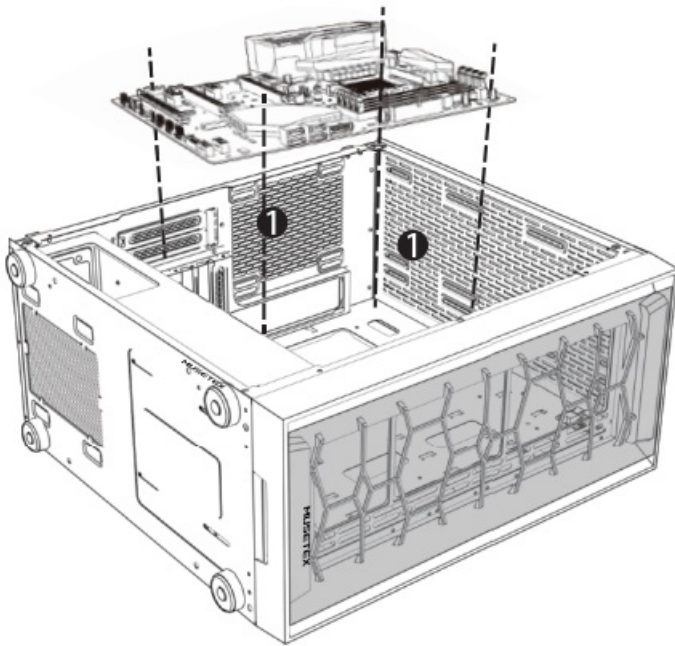

**3** Pull out with force.

Please protect the edges and corners of the tempered glass! Don't hit the corners, otherwise the glass is likely to shatter.

## Motherboard installation

**NOTE:** For ease of transport and to prevent the product from being damaged, we pre-installed the fans on the chassis.

If your I/O shroud of the motherboard is too high, you can remove the rear fan (as shown in 1) first before installing, which will be more convenient for you.

Motherboard Compatibility:

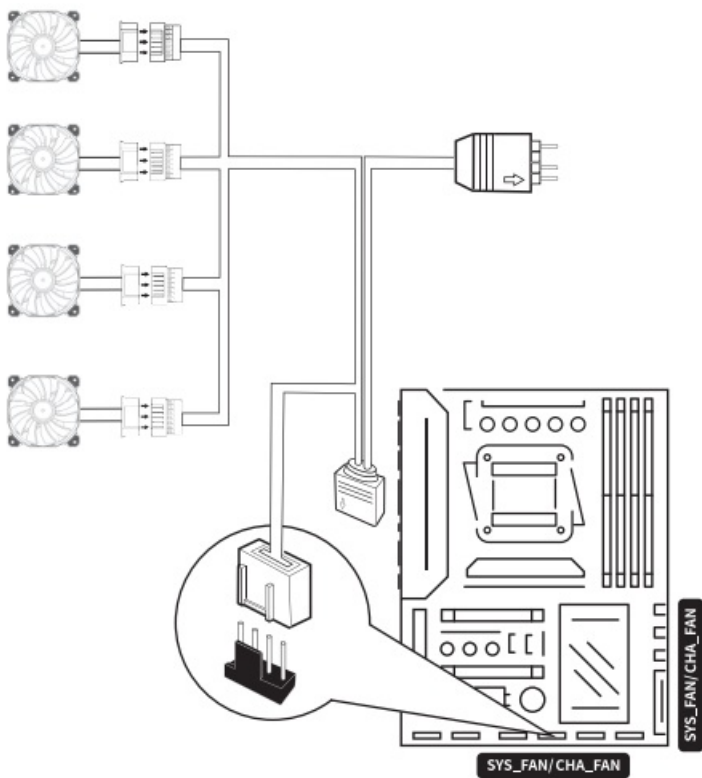

ATX / Micro-ATX / Mini-ITX/ E-ATX.

## Connections

### Step 1 : Connection of fan rotation

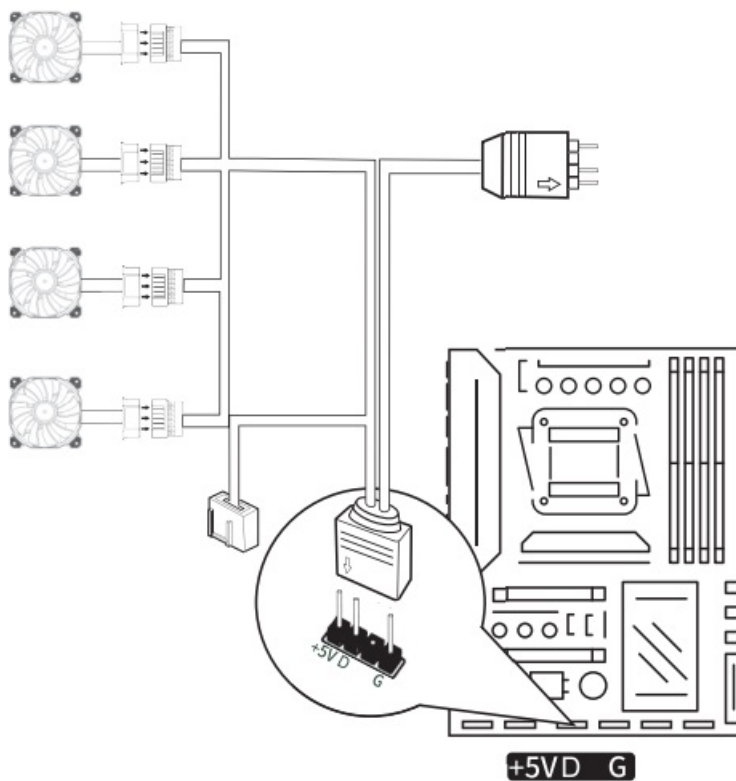

Please connect the interfaces of the same color!

## Step 2 : Connection of fan light

Please connect the interfaces of the same color!

Interface Name +5VD\_G / VD\_G / LED / JRAINBOW

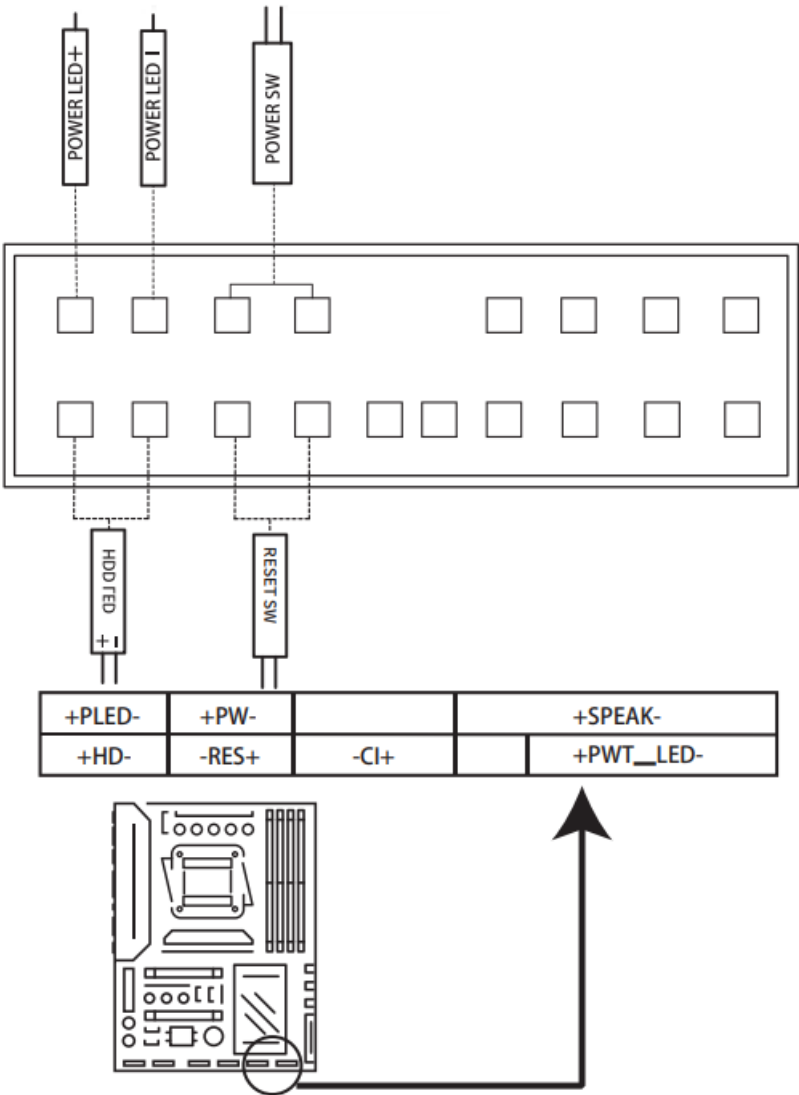

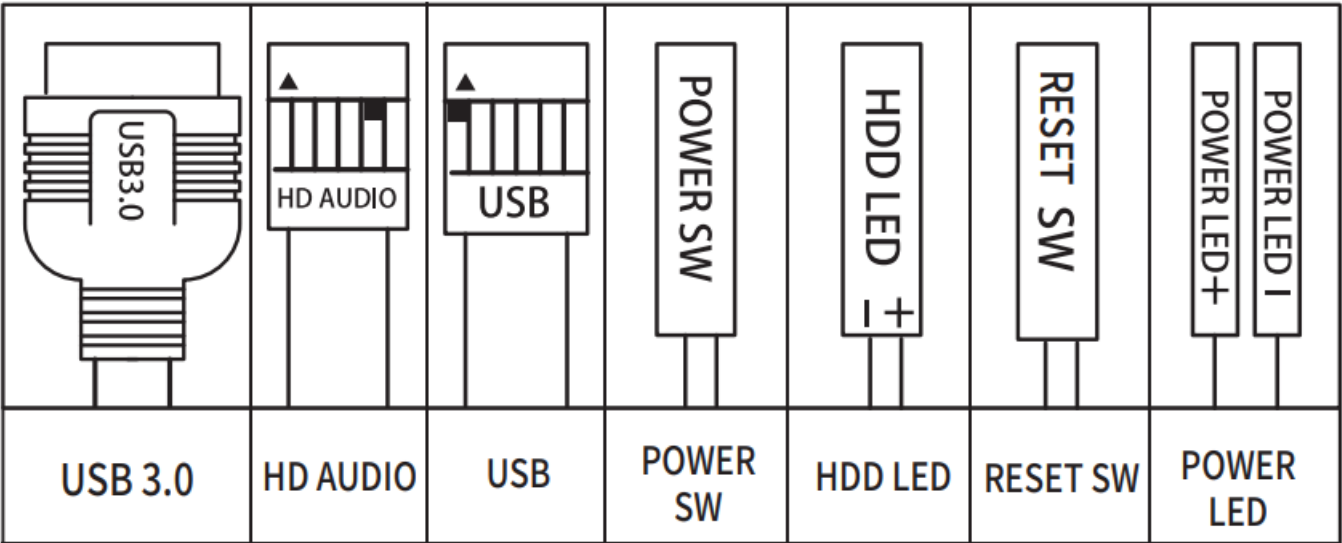

1. Connect fan cable to 5V3PIN RGB motherboard interface, download motherboard ARGB software (please via the official motherboard brand webpage.)

**\*Note:** Not suitable for 12V4PIN RGB interface, but you can buy a converter to use.

2. For detailed and vivid instructions, please watch Musetex product videos on [musetex.com](https://musetex.com).

\*For a more uniform and beautiful pc build, it is recommended to purchase additional fans from MUSETEX.

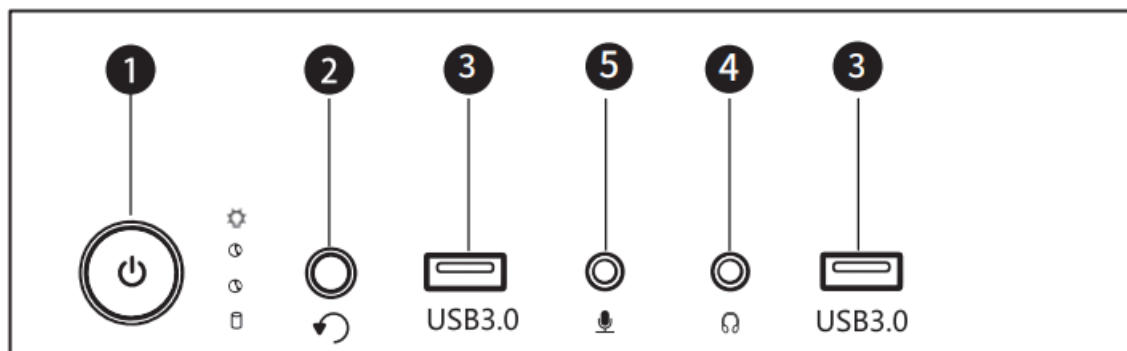

I/O panel connection

I/O Panel

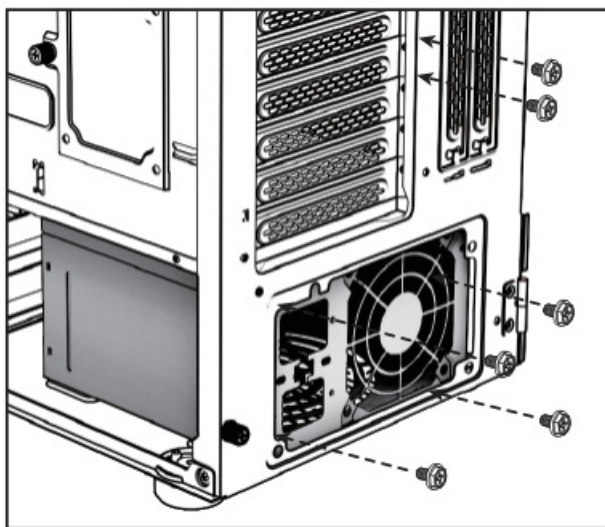

1. Power Button
2. RESET
3. USB 3.0
4. Headphone
5. MIC

## Screw Kit

Used for

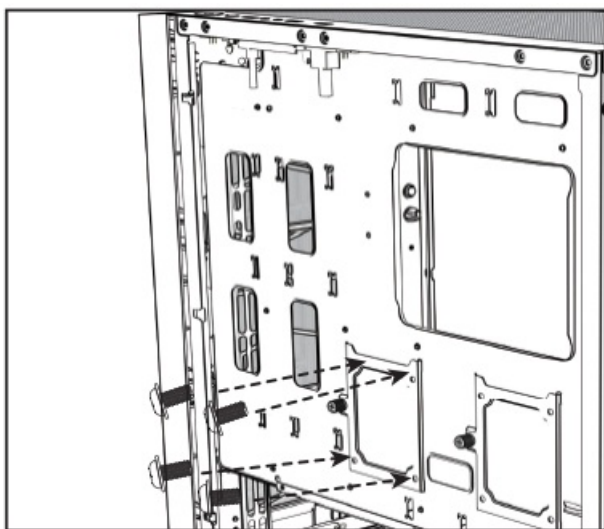

- **A.** PSU/PCI

**A** Screw #6-32\_6mm For PSU/PCI  
x 6

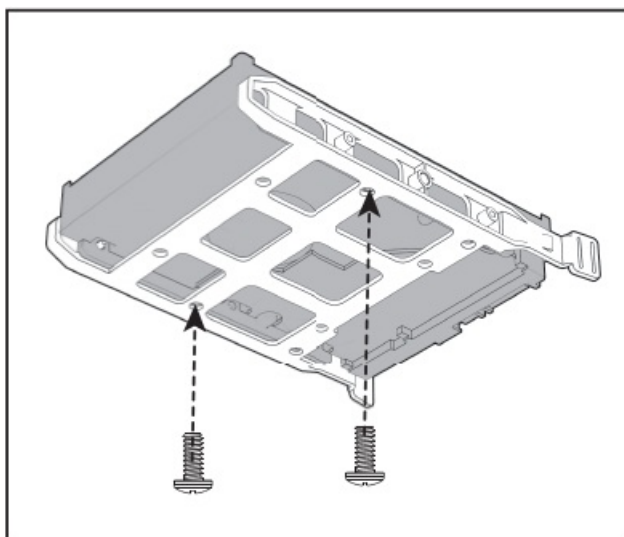

- **B.** SSD / Motherboard

**B** Screw M3\_5mm For SSD / Motherboard  
x 25

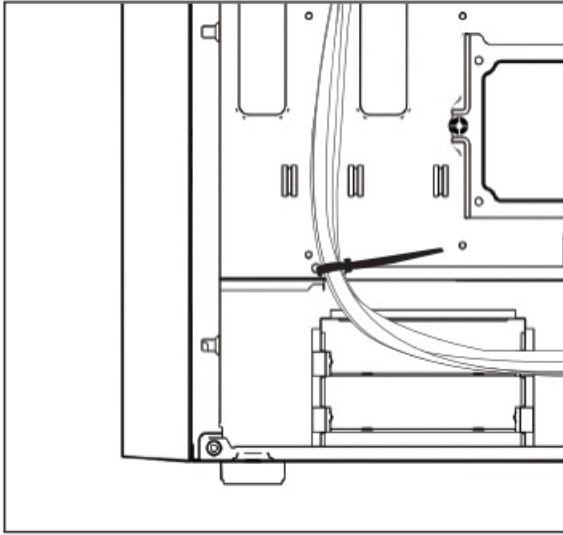

- C. HDD

**C** Screw #6-32\_5mm For HDD  
x 8

- D. Cable Management

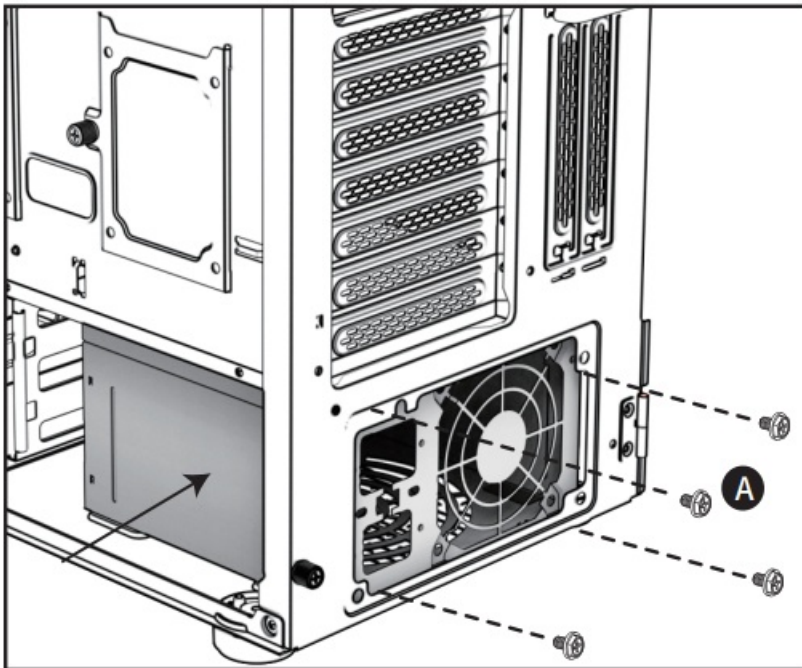

**D** Wire Zip Tie For Cable Management  
x 8

\* Screws letter serial numbers applies to entire manual.

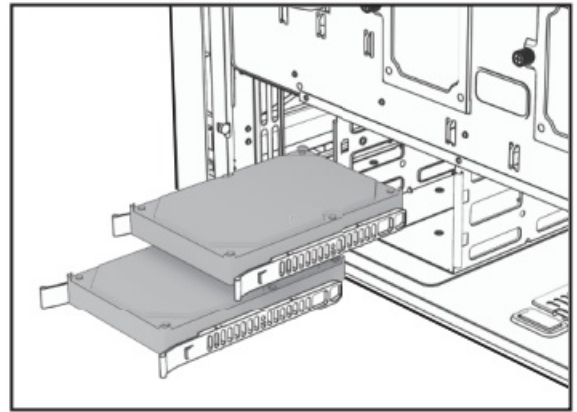

## Power Supply Installation

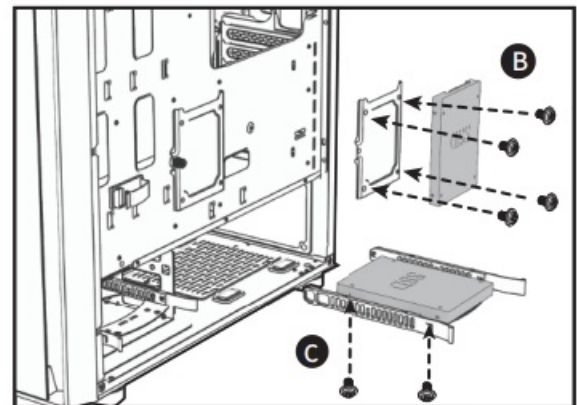

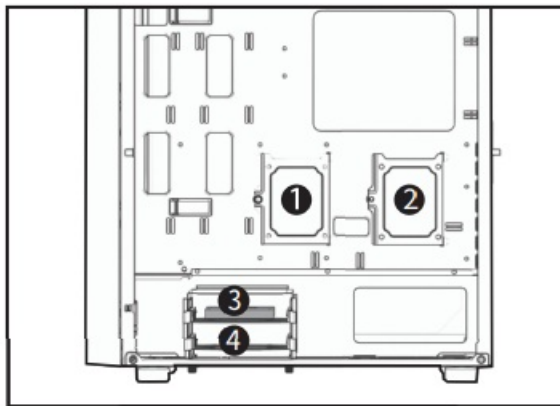

- PSU is not included in the package.

## SSD/HDD Installation

HDD

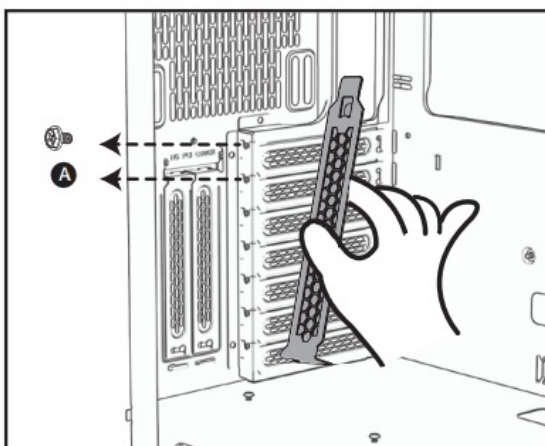

SSD

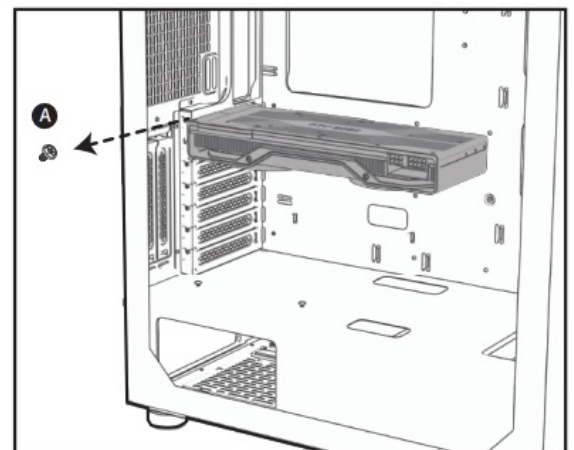

Supporting to install  
2XHDD+2XSSD or 4XSSD

## PCI Card(s)/PCI-E/GPU Installation

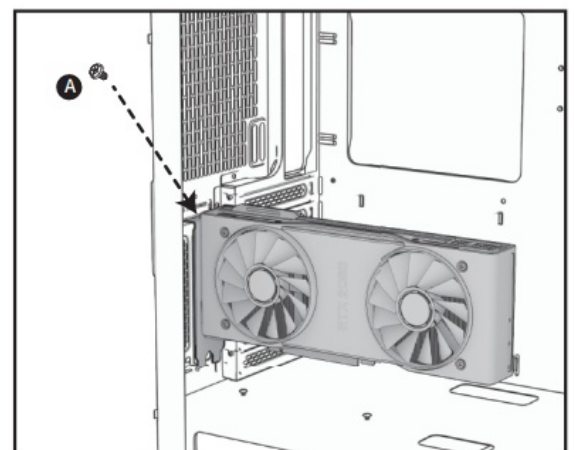

1

2
