My Little Pony F1786 Interactive Remote Control Starscout

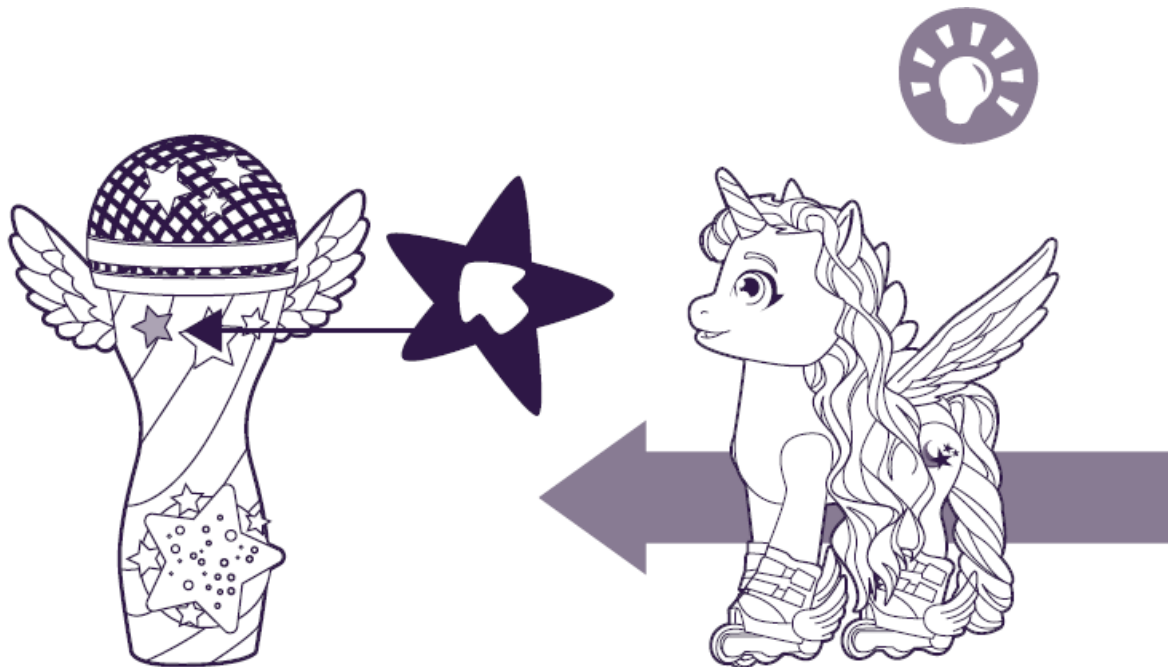

Refer to battery caution information on a separate sheet. Retain this information for future reference.

Play on a smooth, flat, hard surface.

Pony goes to sleep when not active. Wake by pressing the horn.

FEATURES

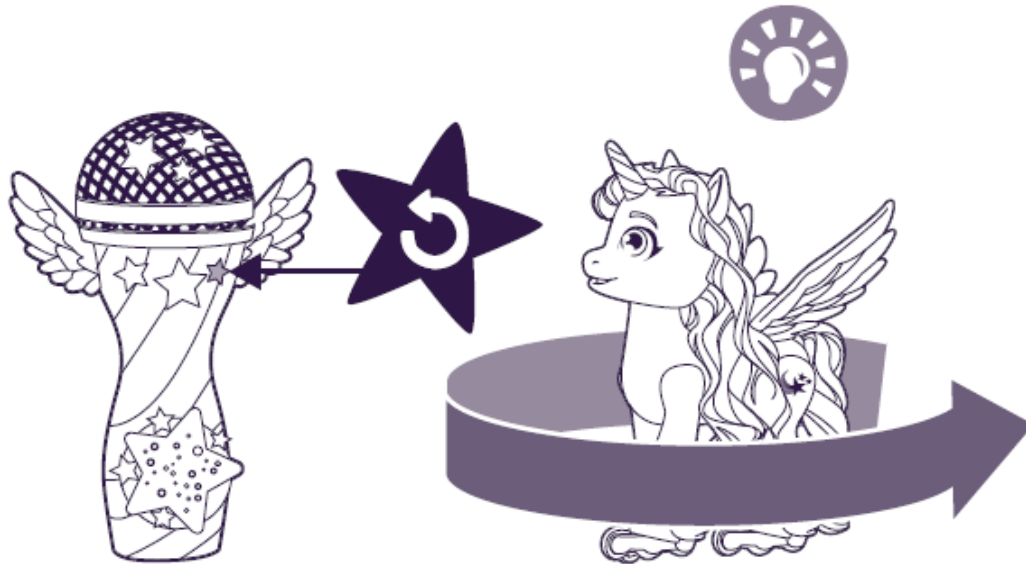

- **Interactive Movements:** Sunny Starscout can move her wings, head, and roller skate, which makes the game more fun by adding actual motion.

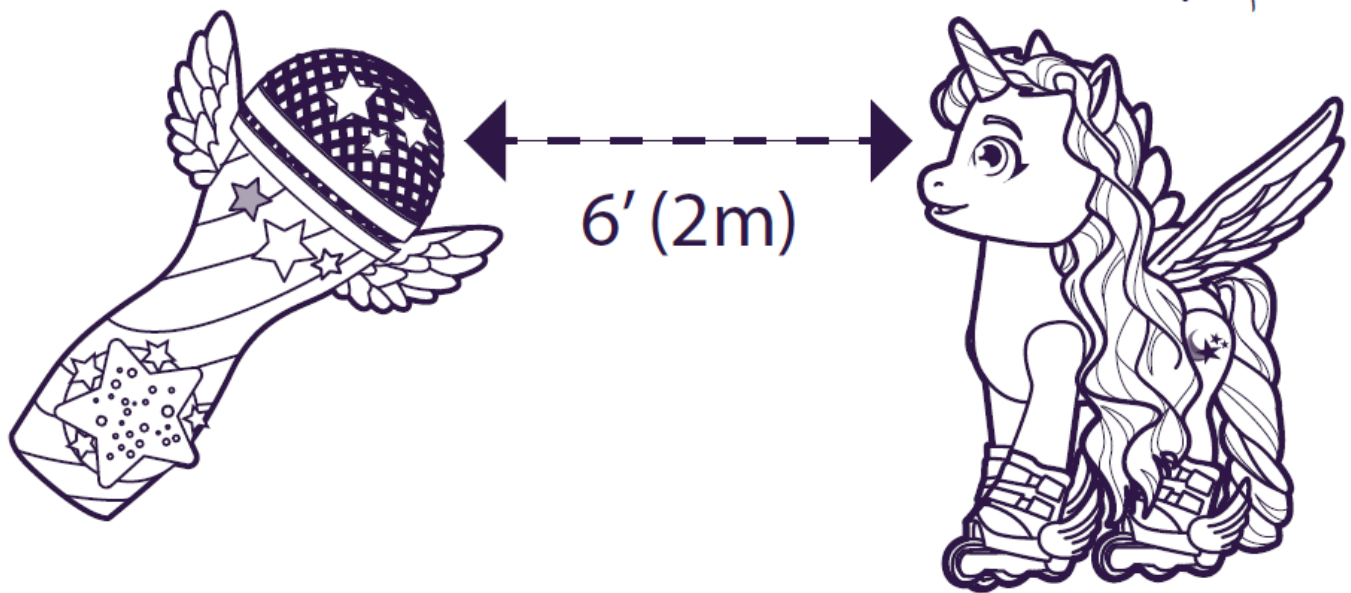

- **Cordless Microphone Remote Control:** The microphone that comes with the kit can also be used as a remote control, so kids can move Sunny and sing along.
- **Lights and Sounds:** The toy has more than 50 different combos of lights, sounds, and movements that make it fun and interesting to play with.

- **Signature Song:** Sunny hums parts of her hit song “Gonna Be My Day,” which gets kids to sing along and play singing games.
- **Spin:** Kids can tell Sunny to spin around, which makes the game more fun and makes it look like dance moves.

- **Movement Speed Control:** Shaking the microphone changes how fast Sunny moves, which lets you play in different ways.
- **Stickers Let Kids Customize:** The set comes with a sticker sheet that kids can use to design Sunny. This encourages creativity and individuality.
- **Light-Up Alicorn Horn:** Sunny's horn lights up, which gives the toy a magical look that kids love.
- **Soft Mane and Tail:** The figure has a long, soft pink mane and tail that make it more fun to play with.
- **Design Based on the Movie:** The toy is based on the movie *My Little Pony: A New Generation*, so fans can play out scenes and events from the movie.
- **Built to last:** Made with high-quality materials that can handle play, so it will last for a long time for busy kids.
- **Age Appropriate:** It's suggested that kids ages 5 and up watch it, so young fans of the series can enjoy it.
- **Engaging Gameplay:** The toy encourages kids to tell stories and use their imaginations, which is good for their brain growth.
- **Perfect for Group Play:** Because the toy is engaging, kids can play together, which helps them get to know each other.
- **Great Gift:** The toy is great for birthdays and holidays, and both boys and girls like it, so it's a great choice for a gift.

SETUP GUIDES

- **Unbox the Toy:** Carefully take Sunny Starscout and the microphone out of the box, making sure that all of the parts are inside.
- **Check the Contents:** Make sure the sticker sheet and any other paperwork that came with the toy are present.
- **Putting Batteries in the Toy:** Open Sunny Starscout's battery box and put in 5 AA batteries (not included), making sure the batteries are in the right way around.

- **Put Batteries in the Microphone:** If the microphone needs batteries, check the instructions and follow the steps it gives you.
- **Safeguard Battery Compartments:** Make sure all battery compartments are closed so that batteries don't come loose while the device is being used.

- **Get to Know the Controls:** Go over the microphone's buttons again to make sure you know what they do for sound and movement.

- **Pick a Good Play Area:** For the best results, pick a flat, open area and make sure there are no obstacles nearby.
- **Turn on the Toy:** To get ready for engaging play, turn on Sunny Starscout and the microphone on the remote control.
- **Test Movement Functions:** Press the button to make Sunny skate forward, and then test her spinning skills to make sure everything works.
- **Customize with Stickers:** Give the kids a sheet of stickers and let them use them to decorate Sunny however they want.
- **Show How to Use the Microphone:** Show the kids how to sing into the microphone and move Sunny at the same time.
- **Encourage Play:** Set up different kinds of play situations and encourage kids to try out new songs and dances.
- **Invite friends to join in the fun:** Introduce group play and encourage them to play and connect with each other.
- **Watch While They Play:** Keep an eye on the kids to make sure they're handling the toy safely and that they don't abuse it.
- **When you're done playing:** Put the toy and microphone away in a safe place to keep them from getting lost or broken.

CARE & MAINTENANCE

- **Every so often:** Use a soft, damp cloth to wipe down the figure and the remote control to keep them clean and dust-free.
- **Damage Check:** Make sure to look for signs of damage or wear on a regular basis, especially on electronic

and moving parts.

- **Take Out the Batteries for Storage:** If you're going to be keeping the toy or microphone for a long time, take out the batteries from both of them to stop leakage.
- **Avoid Water:** To keep the sensitive parts safe and prevent damage, keep the toy away from water.
- **Handling with Care:** Tell kids to be careful when they play with Sunny and the remote so that they don't break them.
- **Avoid Extreme Temperatures:** Keep the toy in a climate-controlled space to keep it from twisting or getting damaged from heat or cold.
- **Used Batteries:** When you need to change batteries, always use the same type (AA) that the product's instructions say to use.
- **Keep Out of Direct sunshine:** To keep the colors and patterns from fading, store the toy away from direct sunshine.
- **Monitor Performance:** Make sure the toy is working right by testing all of its functions, such as its sounds and moves, on a regular basis.
- **Fix Broken Parts Right Away:** If any parts are broken or not working right, fix them or get new ones right away to keep the system running.
- **Avoid Small items:** Make sure there are no small items in Sunny's play area that could get in her way or get stuck in her mechanisms.
- **It's important to teach kids:** The right way to use things like the remote and toys so they can play responsibly.
- **Store in Original Packaging:** If you want to keep the toy for a long time, you might want to keep it in its original packaging to protect it even more.
- **Encourage Careful Use:** Remind kids to use Sunny for what she was made for so that the toy lasts longer and keeps working.
- **Decorating Often:** Tell the kids to change the stickers every so often to give the game a new look and keep it fun.

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

CAN ICES-3 (B) / NMB-3 (B)

Remote control operates on infrared frequencies; sunlight and some indoor lighting may interfere with communication between the controller and pony.
