myCharge Power & Go APM10B2-A

QUICK START GUIDE

RECHARGING POWER & GO

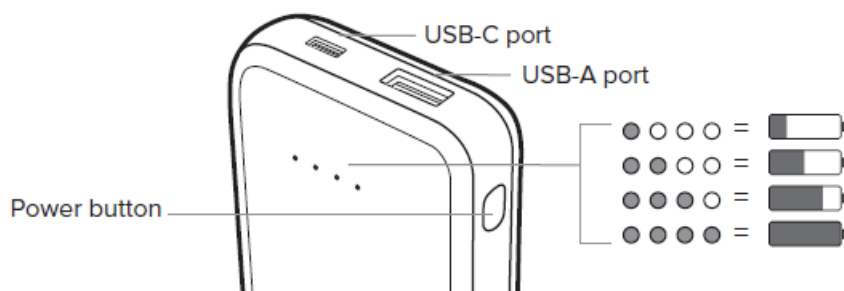

Connect the included recharging cable to any USB power source. Fully charged unit shows 4 solid, non-blinking LEDs.

3 ways to recharge: From wall outlet, car, computer

LED INDICATORS

Press power button to see battery level

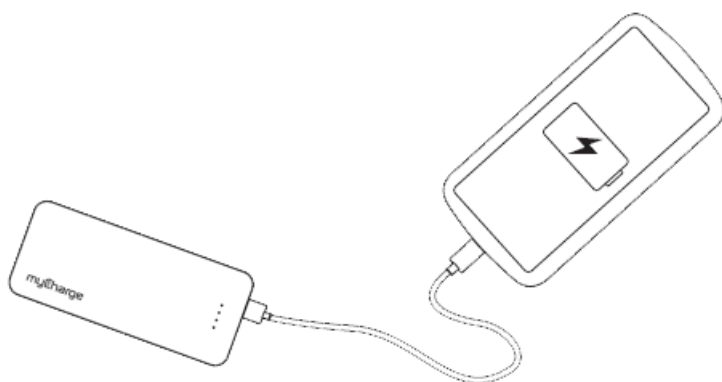

CHARGING DEVICES

Using your own cables, plug the USB end into the Power & Go and the other end into your device. Charging should begin automatically – if it doesn't, press the power button.

Charges 2 devices at once:

- 1 via built-in USB-A Port
- 1 via USB-C Port
