Important safety instructions

It is important to read and understand the following safety instructions before operating the WiFi Button.

- The WiFi Button should only be used in a dry place.
- Only use the WiFi Button in rooms where the temperature is between 0 and 40°C.
- Do not use the WiFi Button in bathrooms.
- The WiFi Button must not be opened by unqualified personnel. There are no parts inside the adapter that can be repaired by a layperson.
- Under no circumstances should the WiFi Button come into contact with water or other liquids.
- Do not expose the WiFi Button to direct sunlight.

Battery in this device: WG 602530 / 3.7V / 400mAh / Li-Po

The battery and the device must be disposed of separately.

To do this, open the device by pressing both halves apart and disconnect the battery from the electronics.

Replacement of the battery with an incorrect type that can defeat a safeguard/fuse (for example in case of some lithium battery types).

Disposal of the battery into fire or a hot oven, or mechanically crushing or cutting of the battery may result in an explosion.

Leaving the battery in an extremely high temperature surrounding environment that may result in an explosion or leakage of flammable liquid or gas.

Leaving the battery subjected to extremely low air pressure may result in an explosion or leakage of flammable liquid or gas.
