Thank you for purchasing this NACON® product.

This product has been designed to enhance your gaming experience. Please keep this user manual in a safe place for future reference.

Warranty

This NACON® branded product is guaranteed by the manufacturer for a period of 2 years from the date of purchase. In the event of a material or manufacturing defect during this period, the product will be replaced free of charge with the same model or a similar article, at our sole and absolute discretion.

Please keep your proof of purchase in a safe place for the entire term of the warranty, as you will need it to make any claim or request regarding the warranty. Without this document, we will not be able to process your request. For all home purchases (mail order and internet sales), please keep the original packaging.

This warranty does not cover defects resulting from accidental damage, improper use, or normal wear and tear. These provisions do not affect your statutory rights. To open the declaration of conformity, please go to: www.nacongaming.com/my-nacon/support/

Windows lock key
Outemu Red switches
Removable feet
26 anti-ghosting keys

Package contents

1 gaming keyboard
1 Quick IB

Control elements

Connecting to a PC (first time)

The NACON CL 520 gaming keyboard is a Plug'n'Play device. In other words, the driver will be installed automatically when you connect it to the PC for the first time. Here is the procedure in detail.

- Turn on your computer and wait for it to start. Then log in to access your Windows desktop.
- Connect the NACON CL 520 keyboard by connecting the USB cable to a free USB port on your PC.
- Windows will then detect the new device and the driver installation process will start a few seconds later (a small icon will appear in the taskbar).
- The duration of the installation depends on the speed of your system. When the installation is complete, the icon will change. You can now use your keyboard.

Windows™ lock (Winlock) key

By default, when you press the Windows key (3), the Start menu is displayed on the screen. If you are playing and accidentally press this button, you will unexpectedly quit your game. To avoid this problem, you can deactivate this function by pressing the [Fn]+Windows (3) keys to deactivate the Windows key.

LED control

You can change the brightness of the effect by simultaneously pressing [Fn] + up or down arrow keys.

You can also use the wheel to control the effects and the light intensity.

-Hold the wheel down for 3 seconds to enter the backlighting management mode.

-Turn the wheel to increase or decrease the brightness of the backlighting.

-A short press of the wheel changes the light effects of the keyboard.

-Hold the wheel down for 3 seconds to go back to the volume model.

The backlighting effects settings can be configured using the software (available on the www.nacongaming.com website).

Volume management

The wheel increases or decreases the volume of the computer. A short press on the wheel mutes the sound.

Creating a macro

Using the software (available on the www.nacongaming.com website), you can create your profiles and macros at will with the macro menu.

Liste des raccourcis avec la touche [Fn]

| | |

Recycling

Do not dispose of this product with household waste.

Dispose of your old electrical appliance at a suitable collection center. Recycling is important and helps protect the environment by reducing waste. EU and Turkey only.

Important precautions

- 1/ This product is designed for indoor use only. Do not expose it to direct sunlight or bad weather.
- 2/ Do not expose the product to splashes, rain, drips, or moisture. Do not immerse it in a liquid.
- 3/ Do not expose to dust, high levels of humidity, extreme temperatures, or mechanical shocks.
- 4/ Do not use and do not open if the equipment is damaged. Do not attempt to repair it.
- 5/ When cleaning the outside, only use a soft, clean, and damp cloth. Detergents can damage the finish and get inside the product.
- 6/ Do not carry the product while holding it by the cable.
- 7/ This product is not designed for people (including children) suffering from a physical, sensory or mental handicap, or for users without the necessary and relevant experience or knowledge (unless they have been given advice and instructions on how to use the device from a person responsible for the user).
Do not leave the product unattended, do not leave this product within the reach of children. Not suitable for children under 7 (the cable can get wrapped around the neck).
- 8/ The maximum operating temperature must not exceed 35°C

Ergonomics

Keeping your hand in the same position for a prolonged period of time can result in pain. If this happens repeatedly, please consult your doctor. As a precaution, take a 15-minute break every hour.
