PRODUCT INFORMATION

Complete 15 Select is a gateway to professional-grade sound, offering a wide range of cutting-edge synths, sampled session instruments, and studio-quality effects.

How to redeem your voucher for your free Complete 15 Select:

1. Head to: <https://www.native-instruments.com/pricing/komplete-15-select/>.
2. Pick a Komplete Select bundle of your choice
3. Check out using the voucher code you received. You won't need to add payment details when you create your account.

Key features

- The essential collection of instruments and effects available in three different editions:
 - **Beats:** Designed for beatmakers, this edition is perfect for genres like pop, hip hop and R&B
 - **Band:** Features sampled instruments that are ideal for songwriting and jamming ideas
 - **Electronic:** Equipped with powerful tools for electronic music producers
- Save on a future upgrade to Komplete 15 Standard
- Massive X – a next-generation wavetable synth for cutting-edge sound design
- Session Guitarist – Strummed Acoustic – the authentic sound of a steel string acoustic guitar
- Scarbee Rickenbacker Bass – the iconic, punchy midrange and stunning power of a Rickenbacker® 4003
- Electric Keys – Phoenix – the retro tones of one of the most influential electric pianos
- TRK-01 – a creative kick and bass sequencer for electronic music production
- Simple setup, activation, and updating via Native Access 2
- Seamless integration with Kontrol keyboards and Maschine
- Works with any DAW
- Register your bundle and receive a €25 e-voucher for the NI Online Shop

System requirements

- **Windows** 10 or 11 (latest Service Pack)
- macOS 12, 13, and 14 (latest update)
- Intel Core i5 or equivalent CPU, or Apple Silicon, 4 GB RAM (6 GB recommended), graphics hardware support for OpenGL 2.1 or higher,
- **Band:** 20 GB free disk space (31 GB for complete installation)
- **Beats:** 8 GB free disk space (11 GB for complete installation)
- **Electronic:** 8 GB free disk space (10 GB for complete installation)
- Supports ASIO, Core Audio, and WASAPI
- Runs in 64-bit VST, AU, and AAX hosts
- An internet connection is required to download, install, and activate the products in this collection. Once installed, all products can be used offline. Certain products may require additional free downloads. Massive X requires an AVX compatible CPU or Apple Silicon processor.
- For up-to-date system requirements, information about Rosetta and native Apple Silicon support, and product descriptions, visit www.native-instruments.com.
- All upgrades require a qualifying base product to remain registered to your account. Should the base product no longer be registered, additional costs may apply.
