Nedis ZBBSM20WT Zigbee Motion Sensor

Product Information

Specifications:

- **Product Name:** Zigbee Motion Sensor (PIR)
- **Model:** ZBBSM20WT
- **Detection Range:** Up to 1.8 meters

Product Usage Instructions

Installation:

1. Identify a suitable location for installing the motion sensor within the detection range of up to 1.8 meters.
2. Ensure the area is clear of any obstructions that may interfere with motion detection.
3. Follow the manufacturer's instructions for mounting the sensor securely in place.
4. Download and install the corresponding Zigbee-compatible application for configuration.

Usage:

1. Power on the motion sensor according to the provided instructions.
2. Pair the sensor with your Zigbee network using the designated application.
3. Adjust the sensor settings, such as sensitivity and detection range, as needed via the application.
4. Test the motion sensor by moving within its detection range to ensure proper functionality.

FAQ

Q: How can I extend the detection range of the Zigbee Motion Sensor?
A: To extend the detection range, consider positioning the sensor at a higher vantage point or using multiple sensors for broader coverage.

Q: Can the Zigbee Motion Sensor be used outdoors?

A: It is recommended to use the Zigbee Motion Sensor indoors as outdoor conditions may affect its performance.
