## NAC01 Smart Air Conditioner Controller

### Welcome to the setup instruction!

As you may notice, this is no longer on paper but online now. This is clearer, greener, smarter.

Start

Welcome

### Choose the right spot for your device

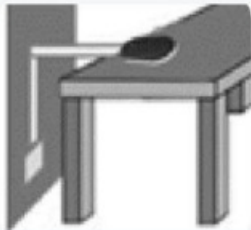

- ✓ Close to your AC in a direct line without obstructions
- ✓ Close to a plug to power supply the device
- ✓ Not directly exposed to the sun to prevent overheating

**Next**

Setup selection

### **Choose your setup option**

**Standing on furniture**

**Mounted on wall**

### **Tools**

**Make sure you have the following tools and components**

Drills

Screwdriver

Screw and Anchor

Pencil

Next  
Place the soft pad

Place the mounting bracket

Place the soft pad

### Mark the wall location

Using your pencil, mark the location on the wall

Place the soft pad

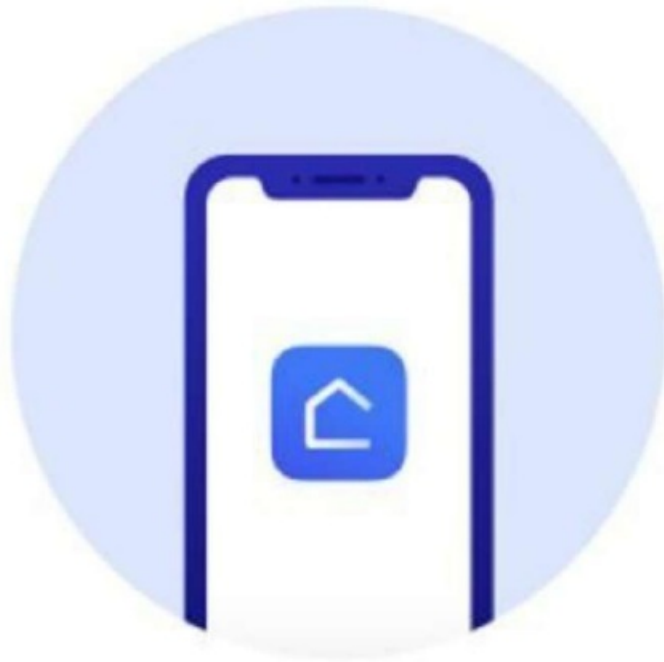

### Plug your AC controller

Plug your device and place it on the previously chosen location

Download the application

Your device is ready to be configured in Home + Control app  
Download or open the Home + Control app to configure your product Open app
