## NEED HELP?

If you have any trouble setting up your Nighthawk router, try these suggestions:

- If you already own another NETGEAR router and you used the Nighthawk app before, go to the dashboard and tap = > SETUP A NEW NIGHTHAWK SYSTEM to install your new router.
- Turn off your modem and router and disconnect them. Reboot your modem. Reconnect your router to your modem and try installing with the Nighthawk app again.
- If you're still unable to install your router using the Nighthawk app, manually install it using the router web interface at <http://www.routerlogin.net>.
