FCC Warning

This device complies with Part 15 of the FCC Rules .Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

NOTE: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

RF exposure

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Frequently Asked Questions (FAQ)

- **Q: How long does it take to fully charge the HM11 Bluetooth speaker?**

A: The new battery only needs 2-3 hours for initial charge/discharge cycles. Avoid overcharging to prolong battery life.

- **Q: Can I use any type of charger to charge the HM11 speaker?**

A: No, please use a standard 5V DC adapter for charging to prevent damage to the product.

- **Q: How do I pair my HM11 Bluetooth speaker with my phone?**

A: Ensure the speaker is in pairing mode, activate Bluetooth on your phone, search for devices, select "HM11," and enter "0000" if required for connection.
