network thermostat NetX X-Series Ethernet Thermostat

Product Specifications

- Brand: Network Thermostat
- Model: NetX X-Series
- Connectivity: Wi-Fi, Ethernet, RS-485
- Sensors: Multiple Temperature & Humidity, HVAC Supply Air, CO2, IAQ VOC, UV-C, Water Leaks, Occupancy, Door/Window Contacts
- Compatibility: Various HVAC systems including Conventional, Heat Pumps, Radiant Floor, VRF/Mini-Splits, IAQ Sensors
- Display: Color display with proximity detection and automatic brightness adjustment

Product Usage Instructions

Installation:

Mount the Network Thermostat in a control closet or designated space. Ensure proper Wi-Fi or Ethernet connectivity for optimal performance.

Setup:

Follow the manufacturer's instructions to connect the thermostat to your home automation system. Configure the thermostat settings according to your preferences.

Usage:

Use the thermostat to monitor and control the temperature, humidity, and air quality in your home. Utilize the multiple screen configurations to view relevant information easily.

Maintenance:

Regularly check and calibrate the sensors for accurate readings. Keep the thermostat updated with the latest firmware for improved performance.

Frequently Asked Questions (FAQ):

- Q: How do I receive email/SMS alerts from the NetX thermostat?

A: To receive alerts, configure the alert settings in the thermostat's menu and provide the necessary contact information for email/SMS notifications.

- Q: Can I integrate the NetX thermostat with third-party home automation systems?

A: Yes, the NetX thermostat offers out-of-the-box integrations with a growing list of home automation drivers for seamless connectivity.

- Q: What HVAC systems are compatible with the NetX thermostat?

A: The NetX thermostat is compatible with various HVAC systems including Conventional (Gas/Electric), Heat Pumps, Radiant Floor, VRF/Mini-Splits, and more. Check the product manual for specific compatibility details.

The Heart of a Healthy Home

Deliver Health and Wellness, Energy Management, and Indoor Air Quality (IAQ) to the residential market. Install Network Thermostat!

The need for Health and Wellness Solutions, Energy Management Tools, and Indoor Air Quality Monitoring/Treatment is outgrowing the number of dealers and integrators who are knowledgeable and equipped to meet this opportunity.

Let's get to work!

Easy Installation & Beautiful Design

- Mount in Controls Closet or in the Space
- Remote Temperature and Humidity
- Color Display to Match Any Decor
- Proximity Detection and Automatic Brightness
- Multiple Screen Configurations; Even 'Dark' Mode for Bedrooms and Theaters

Out-of-the-Box Integrations

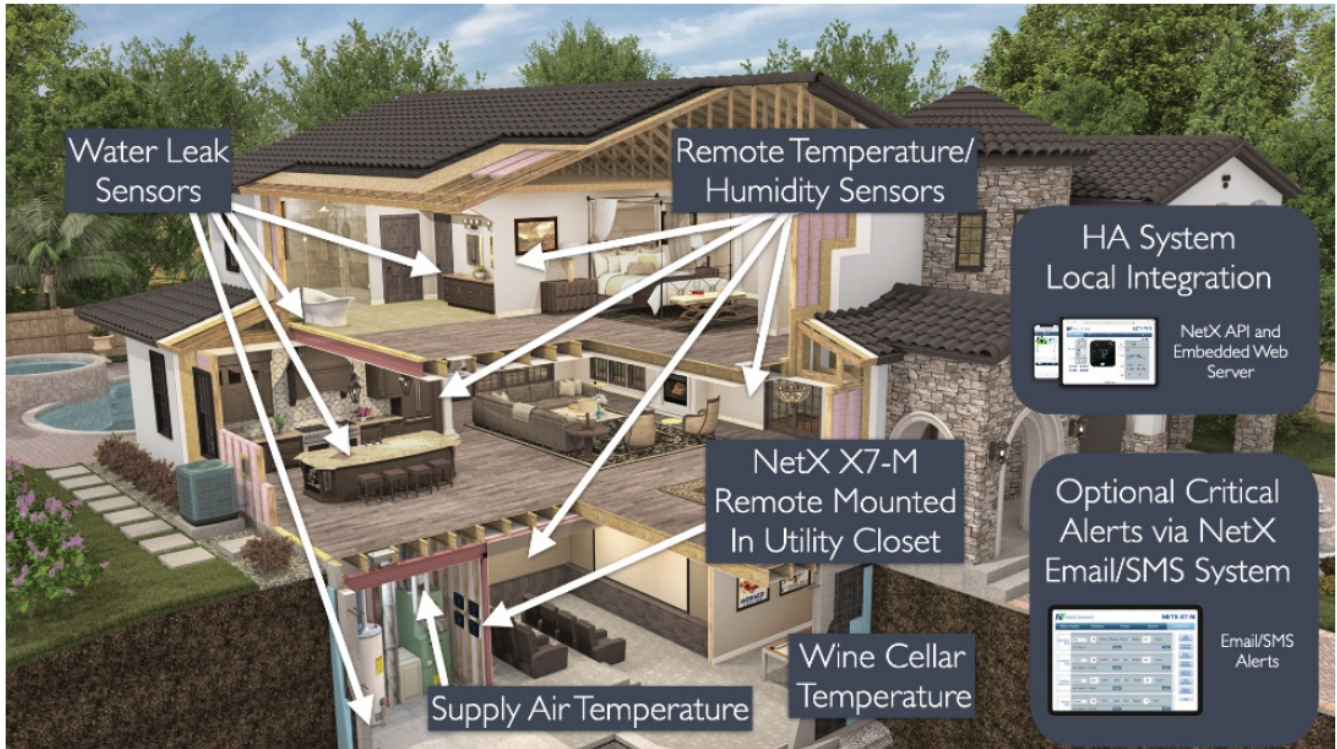

- Growing List of Home Automation Drivers
- Reliable Never-Leave-The-LAN Communications with the HA Controller
- Fast Response Time
- Wi-Fi and Ethernet Connectivity

- Wired Remote Sensors

Simple • Flexible • Powerful

Complete Sensing and Awareness

- Multiple Temperature & Humidity Sensors
- HVAC Supply Air Sensing
- Wine Room & Other Non-HVAC Temperatures
- Water Leaks
- Occupancy and Door/Window Contacts
- NetX Email/SMS Alerts

Connectivity and Control

NetX's comprehensive X-Series Wi-Fi and Ethernet thermostats can handle just about any type of HVAC system designed for a luxury residence, including: All trademarks, logos and brand names are the property of their respective owners.

- Conventional – Gas / Electric
- Heat Pumps – Air-to-Air, Water Source, Add-On, Dual Fuel
- Radiant Floor – Stand-Alone & Forced-Air Hybrid
- VRF / Mini-Splits – Nearly All Manufacturers
- IAQ Sensors and Solutions

Service & Experience You Can Trust

- 30-Year Industry Experience
- USA Based
- USA Designed
- USA Manufactured
- USA Supported
