Specifications

Working temperature: -20°C~60°C;

Working Voltage: DC5V-24V;

Working Current: 20mA-90mA;

Remote distance: 30 Meters:

Product size: 80mm 4 1mm 20mm;

Product weight: 40g;

Certificates: CE, Rolls:

Features

- 1. Long distance APP remote control via WiFi:
- 2. Support routing mode(AP) and LAN connection mode(STA);
- 3. Support almost every kind of one-wire or two-wire LED driver IC;
- 4. Brightness adjustable, With 180 kinds of patterns and 8 kind of color adjustable patterns;

- 5. Creatively using from-image-to-effect method for user to DIY any effect;
- 6. Support setting pixel number and segments number, able to control up to 2048 pixels;
- DC5V-24V wide range working voltage, preventing reverse connection of power supply;
- 8. User setting saving;

App Control

Both IOS version and Android OS version are available. (hardware should support WIFI)

- Requires IOS version 10.0 or later:
- Requires Android OS version 4.4 or later:
