nexHOME Shelf Board Kit

Product Specifications

- Product Name: Shelf Board Kit
- Included Parts: Shelf Board, Brackets, 2-inch screws, Anchors, 1/2-inch screws

- Tools Needed (not included): Hammer, Drill, Screwdriver, Level, Pencil, Measuring tape

Product Usage Instructions

Safety Notes

1. Determine the location for installation, using measuring tape for the required height and width.
2. Use a level to draw a line under the shelf board.
3. Align the brackets to the line and mark the spots for drilling holes for screws.
4. Determine if studs are behind the marks with a stud finder.
Drill pilot holes on the marks, double-check that the marks are level and aligned.

Step-by-Step Installation

1. **Step 1:** Use a hammer to insert anchors into the holes without a stud behind. Do not insert anchors if a stud is behind the holes.
2. **Step 2:** Use a screwdriver to fasten the brackets to the wall with the 2-inch screws provided.
3. **Step 3:** Place the shelf board on top of the brackets and secure the board using the 1/2-inch screws provided.

FAQ

Q: Can I use this shelf board kit on drywall?

A: Yes, you can use anchors provided in the kit to securely install the shelf on drywall.

Shelf Board Kit Installation Manual

Safety Notes

- Ensure at least one bracket is securely fastened to a wall stud to support the weight of the shelf and the items it will hold.
- Use appropriate drywall anchors if a stud is not available to prevent the shelf from pulling out of the wall.
- Do not overload the shelf beyond its weight capacity to avoid accidents.

Keep the installation tools and small parts out of reach of children.

- Determine the location for installation, using measuring tape for the required height and width.
- Use a level to draw a line under the shelf board
- Align the brackets to the line and mark the spots for drilling holes for screws.
- Determine if studs behind the marks with a stud finder. Drill the pilot holes on the marks, double check that the marks are level and aligned.
