Modernize your home for a smart life

Nexxt Solutions introduces its new Smart Home Automation Series. Designed to suit your mobile lifestyle while

building a safe environment inside and out of your home, the brand seamlessly unies into one user-friendly application a comprehensive line of fully integrated devices. From smart plugs, cameras, bulbs, and photo frames to security kits, you can now take control and run your home devices on your own schedule even when you are not there.

Forget about fipping the switch to turn on or your home devices with the Smart relay switch. Wirelessly control your appliances through the Nexxt Home app to create schedules, set a countdown, share control with users, and lock kids access with this smart relay switch. It helps you oversee your child's routine; turn the gaming console when it's time to study and turn it on when the homework is complete. You can also create a group of devices to manage their working time and turn them all on or simultaneously, optimizing time. Save energy by remotely accessing your lamp, fan, sound system, or TV to control them even when you are away. Conveniently manage your home appliances using Amazon Alexa or Google Assistant while cooking, reading, or watching TV. It is a practical solution to automate your home and make it truly smart.
