NHE-S300 Smart WiFi 3 Way Light Switch

			
3-way Single pole	Only requires 1 smart switch per electrical circuit	Upgrade your existing in-wall light switch. Installation and neutral wire required	Voice control Requires an Amazon Alexa assistant-enabled device

The easiest way to make your existing lights smart

Nexxt Solutions introduces its new Smart Home Automation Series. Designed to suit your mobile lifestyle while building a safe environment inside and out of your home, the brand seamlessly unifies into one user-friendly application a comprehensive line of fully integrated devices. From smart plugs, cameras, bulbs, and photo frames to security kits, you can now take control and run your home devices on your own schedule even when you are not there.

Modernize your home and make your life easier with this Smart Wi-Fi 3-way light switch that enables you to control an electrical circuit from two different locations. Gain flexibility by controlling indoor fixtures with this switch right from your smartphone through the Nexxt Home app, and integrate it into your existing wireless network, no hub required. Create schedules to turn it on or off, so you don't have to worry when you are away. When you are tired or can't find your phone, just control the switch through voice activation with Google Assistant and Amazon Alexa. Enjoy the convenience of automating your home lights, check real-time status, and save power.

Highlights

- Control lights from two locations; also works as a single pole switch
- No hub required
- Easy pairing
- Nexxt Home app
- Voice activated: utter simple commands using Amazon Alexa and Google Assistant
- iOS and Android™ compatible app
- Create schedules: turn lights and connected loads on or off at specific times, or based on sunrise-sunset cycles
- Multiple programmable timers
- Share access
- Works with 3-way and single pole switches
- Only requires 1 smart switch per electrical circuit

Smart HOME. Smart living
