- Charging Port: Type-C (USB-C)
- Charging Indication: Red light during charging; Green light when finishing charged
- Battery Level Indication: Red flash(*specific number of flashes not mentioned*) indicates low battery

Product Usage Instructions

Charging the HP340

1. Locate the Type-C charging port on the HP340.
2. Connect the provided Type-C cable to the charging port.
3. Plug the other end of the cable into a power source, such as a USB charger or a computer's USB port.
4. The HP340 will start charging, indicated by a red light.
5. Once the HP340 is fully charged, the red light will turn green.
6. Unplug the charging cable from the HP340 and the power source.

Using the HP340

1. Press the power button on the HP340 to turn on the light.
2. To adjust the brightness, press and hold the power button. The light will gradually brighten or dim. Release the button when it reaches the desired brightness level.
3. To turn off the light, press and hold the power button until it shuts off.

Battery Level Indication

The HP340 has a battery level indicator to help you monitor the remaining battery power. When the battery is running low, the light will flash red. Please recharge the HP340 as soon as possible to ensure uninterrupted usage.

Frequently Asked Questions (FAQ)

- Q: How long does it take to fully charge the HP340?
  A: The charging time may vary depending on the power source. It is recommended to use a 5V/2A charger for optimal charging speed. On average, it takes approximately 2-3 hours to fully charge the HP340.
- Q: Can I use the HP340 while it is charging?
  A: Yes, you can use the HP340 while it is charging. However, please note that the charging time may be longer if the light is in use during charging.
- Q: Is the Type-C cable included in the package?
  A: Yes, a Type-C charging cable is included in the package. It is recommended to use this cable for optimal charging performance.
