### Installation Instructions

1. Clean mullion surface of all dust, dirt, oil, grease, etc.
2. Surface temperature of the mullion must be above 50°F for the adhesive on this seal to bond properly.
3. Cut the seal to the proper length.

- Remove protective backing 1 to 2 feet at a time and adhere the seal to the center of the mullion face that the doors close against.

- Firmly press down along the entire length of the seal to bond the adhesive to the mullion. DO NOT remove and relocate. DO NOT stretch the seal when installing.
- Adjust the position of the RIM Exit Device strikes as required for proper latching of the devices.
